

PLACES TO MEASURE:

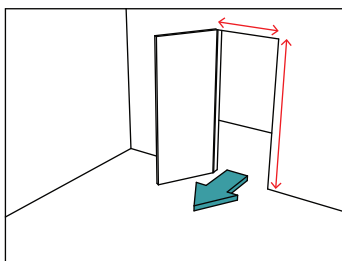

Elevators and Ceilings

Stairwells

Hallways and corners

Doors

Please read carefully

Most furniture (tables, desks, shelving etc) that is over 60" in length, will ship via a freight carrier. It will ship on a skid/ partial wood crate, flat packed and unassembled.

UWG assumes no liability that the furniture you, the customer, have purchased will fit into your space.

It is the customer's responsibility to measure all recommended areas.

Standard delivery is "curbside" delivery for residential/small businesses or via loading dock, if it's a commercial space.

If you require additional delivery services into your space, a specific room or to have crate debris removed, you will incur additional charges that you will be responsible for. We require that you request a quote for this at the time of purchase or shortly thereafter.

If you fall outside of what our chosen freight and logistics company considers standard delivery zones (must be within 40 miles of one of the 95 largest metropolitan city hubs) you may be subject to additional delivery charges.

We will contact you within 3 business days of placing your order, if something you have purchased is subject to additional delivery charges. At that time if you do not accept the additional sur-charges, you are eligible to cancel order without penalty.

For smoothest delivery experience, it is recommended that you arrange to have additional labor or friends on site to accept your skid/crate delivery & to help you move it into your space.
