GUIDELINES

Custom wedding projects require a minimum of four months lead time. (No guarantees are made otherwise.)

We either work directly with the client or the retail store of the client's choice.

Decision on design and color must be made no closer than two months prior to the date needed. At this time, a deposit of approximately one-half the projected total will be due.

A minimum order of 12 ties is required.

Once the fabric order has been placed, we will be unable to accommodate changes to the order.

If, after the sample has been ordered, changes are necessary or an order is cancelled, a charge of \$150.00 will be incurred.
