

Step 16. Attach Stacking/Tilting Tub

Set the Rear Pegs of the Tilting Tub into the Rear Peg Slots in the Rear Frame. Lower the Tub to insert the Front Tub Pegs into the Front Frame Peg Holes. Apply light pressure to all four corners of the Tub to fully seat the pegs. NOTE: This Tub will tilt like a dump truck and can be easily lifted off the frame.

Step 17. Install Cargo Walls

The Flatbed has a square hole in each corner. Slide the short legs of the Cargo Walls into the two square holes of the flatbed on either end. Add the Optional Tool Rack on any one of the three sets of elongated holes on the Cargo Wall to hold fishing poles or other tools. (Use the Tool Rack on rear Cargo Wall to line up with holes located on the Rear Frame.)

Step 18. Optional Fishing Pole Holders

You can purchase our heavy duty Fishing Pole Holders in sets of 2. Slide the two Fishing Pole Holders over the top posts of the Front Cargo Wall and/or Rear Cargo Wall and snug fit them to the tapered tops of the Cargo Walls.

Step 19. Set Tub Atop Cargo Walls

Set the Mighty Cart to its shortest length. Set the Tub on the tapered tops of the Cargo Walls and press down on the corners to securely seat the tub. Now you have a double-decked carrier.

Step 20. Bungee Cords

The Heavy Duty Bungee Cords can be used to secure your cooler or other cargo. * Included in Plus One Fishing Cart

Step 21. Optional Hitch Assembly

Comes with 1-1/2" Black Nylon Bolt and Locking Wing Nut to fasten to additional cart.
