

EVERKI®

VENUE (EKS622)

Premium Mini Messenger For iPad/Kindle/Tablet

You'll always find spaces for what you need during a flight, or your trip to the corner café. With its intuitive layout, and black on black leather accents, it's sure to become your favorite essentials bag.

Everki's Intuitive Messenger Design

Store your iPad, Kindle, or other tablet, in the felt-lined and extra-padded pocket, with generously proportioned top flap for easy access. Multiple interior spaces allow you to find everything without fumbling around. Protect your passport and cards in the RFID pocket, while the mesh pocket is perfect for your wallet. There's also slots for earbuds, pens, a calculator, notepad, and other peripherals. Your phone is easily accessible in its own special compartment. The extra wide shoulder strap is engineered at an angle to keep the bag close to your body. Stylish organization for on-the-go functionality.

RFID Protection

Most contemporary passports, credit cards and smart cards come equipped with an RFID micro-chip. Carrying them may make you vulnerable to illegal remote scans of the personal information stored on them. Identity theft is a serious concern. So we designed the Atlas to protect the sensitive data on your passport and credit cards with an RFID-protected pocket. Simply slip your passport, credit cards or other forms of identification into the secure pocket, and your personal and banking information are safe from illegal RFID scans.

Easy Access Phone Pocket

Everki's pursuit of quality and innovation is noticeable even in the small things. We believe details like the location of the phone pocket are critical. That's why the Venue's phone pocket is on the outside, and in the back, so you can reach it quickly and easily. You don't have to open the flap, or remove the bag, to get to your phone.

High-Contrast Lining

All Everki interiors are stylish, high-contrast orange because we know how frustrating it is to mistakenly leave a compartment unzipped, and how difficult it is to organize against a black background. Savvy and Stylish.

Large Zippers with Metal Pulls

Have you ever broken a zipper on your favorite bag? We have. That's why we designed the Atlas using durable zippers and metal pulls. So your favorite bag can remain your favorite bag.

Lifetime Warranty Protection

You can enjoy peace of mind knowing that with any product in the Everki family, you never have to worry about discovering a flaw or defect after the end of the warranty period. Everki's Limited Lifetime Warranty protects your purchase against manufacturing defects over the entire life of the product.
