Let's Make Socks

As a premium manufacturer we pride ourselves on building products that last, and more importantly are memorable for our customers. SOCCO developed truly comfortable stripe socks with that old school athletic feel. The higher cotton content makes the socks breathe and feel better. The feeling of cotton is still the popular choice for garments used daily. We added thickness for durability and to withstand the rigors of the wash and wear active lifestyle. The Signature Spec comes in two sizes and two lengths, with a choice of groovy yarn colors. We brought back the look and upgraded to comfy.

CUSTOMIZE "SOCCO ORIGINAL SOCKS"

Minimum Order Quantity:

120pr Minimum:

CUSTOM EXAMPLES

What is knit-in sock?

Simply put "Knit In logo" means our machines carefully and intricately knit the art into the body of the sock as opposed to printing the logo. The final sock product will look slightly pixelated due to the knitting process, we do our best to represent as closely as possible that effect in the CAD design we send you for art approval.
