

POT OF GOLD STEP-OUTS

Step 1

Cut out all pieces in desired colored craft paper. Place all three pot of gold cutouts next to each other, with the tabbed ones on either side, pointing the tabs to the center pot.

Step 2

Vertically fold all pot pieces down the centers, with the folds pointing up. Fold both tab pieces in the opposite direction.

Step 3

Put an adhesive of your choice on the tabs and adhere them to the backside of the center pot of gold. Line each pot up precisely or your accordion won't fold nicely.

Step 4

Adhere the clover pieces to the outside of your pot so that they line up nicely when the accordion is closed.

Step 5

Slide your pop-up piece into the center pot using the small cut tabs of your pot.

Place and adhere your gold coins to the top of your center pot, in any pattern you would like. Allow the coins to fold down the middle, as your center pot folds.

Step 6

Add your Mystery Pack to the center pop-up. You're done! Gift it to someone who needs a little luck today.
