Application	Part No.	Price
Black	OM 15303.95	\$13.00

**Power Wrench**

Your factory Lug Wrench that comes with your Jeep® can't be used for most aftermarket wheels. This thin wall lug wrench can be used for any aftermarket Jeep® wheels.

Application	Part No.	Price
Power Wrench with Dual Socket	WK 407	\$ 15.00

Speedometer Gears

When you change your tire size or axle gear ratio, your original speedometer gear will not register the same mp/h as it did with the stock gears and tires. We recommend changing the speedometer gear to the correct tooth count to obtain the proper mp/h reading on your speedometer. You may use the gear ratio chart below to determine the correct Speedometer Gear.

	35"	33"	32"	31"	30"
4.56	35	36	37	37	38
4.10	33	34	35	36	37
3.73	31	32	32	33	34
3.56	29	31	31	32	33
3.07	28	28	28	28	28

Speedometer Gears	Part No.	Price
97-06 Wrangler 28 Teeth Gear	CR 52067628	\$40.00
97-06 Wrangler 29 Teeth Gear	CR 52067629	\$40.00

**AEV ProCal Programmer**

This essential tool provides JK owners an easy, low-cost way to make a variety of useful changes not offered by the dealer or any other re-programmer. Correct the speedometer and gear ratio when larger tires are installed. With the speedometer left uncorrected, there is a major degradation in the engine performance & transmission shifting stability.

Corrects Speedometer Reading
Can change Turn Signal Setting to "One Touch"
Clears Engine Codes
Re-calibrates Tire Pressure Monitoring
Corrects Gear Ratio Setting
Can change Settings for Daytime Running Lights
Can increase Engine Idle Speed
Optimizes ESP Performance

Application	Part No.	Price
07-17 Wrangler	AEV 30406007AB	\$170.00

**FORTECJEEP****Tire Deflators**

These Tire Deflators are fully adjustable air down in increments of 3 PSI, and the tire pressure can be down to 8 PSI. These 100% brass deflators are the fastest on the market, and there are no tools required. (Set of 4)

Application	Part No.	Price
All Jeep's	OM 15104.53	\$ 40.00

**Tire Repair Kit**

The Rugged Ridge Tire Repair kit is essential recovery gear for any road or trailside tire repair. The heavy duty carry case includes: two sturdy aluminum handles, 2 reamers, 2 needles, 2 allen head wrenches, and 25 self vulcanizing tire plugs.

Application	Part No.	Price
All Jeep's	OM 15104.51	\$ 25.00

**JKS JCal Programmer**

The J-Cal Programmer from JKS Manufacturing is a must have for any 07-17 Jeep JK Wrangler owner who is looking to make the most out of their build. Whether you're using your JK as a daily driver or hitting the trails of Moab every weekend you've probably noticed there is no factory option to easily recalibrate your speedometer after upgrading your tire size and/or gear ratio, and that there are some quirks that could be improved with the factory JK electronic systems. Rest assured the J-Cal programmer from JKS is the perfect solution to these problems, and more! The J-Cal programmer is an easy to use, digital screen, handheld plug-in programmer that is capable of correcting your speedometer for tire sizes up to 42", and for gear/axle swaps up to 5.38s, with many other features built-in to improve the on-road and offroad performance of your JK Wrangler.

Application	Part No.	Price
07-17 Wrangler	JKS PWT3575	\$160.00
