

AEV Bumpers

AEV Premium Front Bumper

The very popular AEV Premium Front Bumper provides a clean and attractive factory look because it is stamped. Only the center hoop and end cap additions are welded. The bumper is available with or without center hoop. With only 110 lbs it is relatively light compared to other heavy duty bumpers. The bumper retains your Jeep's factory crush cans and factory fog lamps while offering two heavy duty light tabs for off road lights as big as 8" in diameter. The black powder coated stainless steel perforated mesh in the front allows you to see the winch cable spooling in or out. This bumper looks best when installed with a winch (winch plate and winch sold separately) but can also be installed without a winch. In that case it looks best if you add the optional winch delete plate that covers up the bumper's winch opening. Made in the USA.

AEV Rear Bumper

The new AEV rear bumper corresponds perfectly in design and finish with the form stamped AEV front bumpers. The rear bumper features a wide built-in rear step with non skid surface, 3/16" thick wall, mandrel bent chassis-mounted corner protection tubes, 1/2", thick D-shackle mounting points and 2.4 gallon water storage tanks. The bumper can be purchased with or without heavy duty tire carrier. The chassis-mounted tire carrier opens as one with your tailgate and can hold up to a 40-inch tire. The tire carrier also fits for factory rear bumpers, 10th Anniversary, Moab and Call of Duty Rear Bumper.

**01 OR-Fab Winch Bumper**

07-17 Wrangler	Part No.	Price
Black Textured	OF 83228	\$850.00

OR-Fab front bumper with an opening for a winch to be dropped into the bumper, allowing unobstructed airflow to the radiator. Factory fog lights can be reused.

**02 OR-Fab Winch Bumper**

07-17 Wrangler	Part No.	Price
Black Textured	OF 83226	\$825.00

OR-Fab bumper that features a top-of-bumper winch mount. Factory fog lights can be reused.

**OR-Fab Bumpers**

This Arizona based manufacturer offers an excellent bumper program. Made in the USA from 3/16" steel plate with 1/2" thick steel mounting brackets, this tapered bumper easily slides off rocks and extends to protect your Jeep's® front end. We especially like that the hoop of this bumper is 2.5" thick which is beefier than on most other bumpers. Available in either textured or gloss black finish.

**Made in USA****05 OR-Fab Rear Bumper**

Made as tough as the matching front bumper, the tapered design easily slides off rocks and extends to protect your Jeep's® rear quarter panels during extreme departure. The bumper is available in textured black. It can be combined with any factory or aftermarket 2" receiver hitch (not included). Back Up lights sold separately. Optional Tire Carrier on page 87.

Poison Spyder® Bumpers

Poison Spyder is a manufacturer of Jeep® equipment for the extreme enthusiast. Their off-road armor has achieved legendary status in the industry. All items offered here are either available in a powder coated textured finish or in bare metal.

SpyderShell™ Armor Coat Black

Poison Spyder's SpyderShell Armor Coat has been engineered to provide your Poison Spyder product with years of unmatched great looks, corrosion protection and weather-resistance. Their proprietary 6-stage system starts with media blasting the entire part, to remove contaminants and prep the metal surface for the best possible adhesion. Next, any seams are sealed with 3M Scotch-Weld to block moisture from entering and causing corrosion where the powder can not reach. The first coat to be applied is a zinc-rich powdered black primer, which is baked on to form an impenetrable bond between the metal product and the coating. The primer is black - rather than traditional gray - so that any rock chips or trail damage are less conspicuous. The final top coat is an industrial grade, "super-durable" architectural finish in semi-gloss black, which is engineered to retain its appearance through years of exposure to sun and weather. SpyderShell is a coating process unmatched by any other Jeep armor aftermarket manufacturer, for which we are confident in offering a 5-year warranty on materials and workmanship.

07

Poison Spyder Rock Brawler™ II Rear Bumper

This Mid-Width Rock Brawler Rear Bumper is made of 3/16" plate steel. It has provisions for mounting recessed backup lamps, comes with an integrated 2" trailer hitch and D-ring mounts.

GenRight® Bumpers

Made in USA

GenRight Aluminum Full Width Winch Bumper

The GenRight Off Road full width aluminum front bumper with a low profile trail stinger is a lightweight JK front bumper (most steel bumpers are over 200lbs) that fits a (recessed) winch and factory fog lights. Genrights high quality, heavy duty full width bumper is designed to be as high clearance as possible. It is perfect for the Jeep owner who wants to upgrade to a "winch" style bumper on the front of their Jeep, but still maintain a clean body line with the factory front fender flares. Made in the USA.

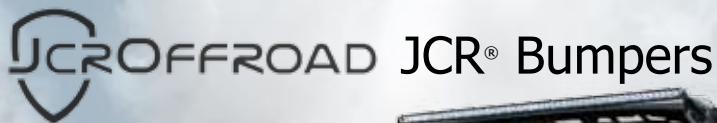

07-17 Wrangler	Part No.	Price
01 Aluminum	GR FBB8295	\$1,540.00

GenRight Aluminum Stubby Winch Bumper

The GenRight Off Road Stubby front bumper for the Jeep Wrangler JK sports a small size and simple design with the trail version of the stinger welded directly onto the bumper. The high quality, high clearance stubby type front bumper with a recessed winch mount is perfect for the guy who wants a clean and simple front bumper for their Jeep. The design incorporates the optional winch mount to keep the winch lower than most other bumpers to allow for optimal air flow to the radiator. Made in the USA.

07-17 Wrangler	Part No.	Price
02 Aluminum	GR FBB8245	\$ 935.00

JCR® Bumpers

JCR Offroad Front Winch Bumpers are designed for those looking for the maximum fender to fender protection for the Jeep Wrangler JK. The Bumpers are CNC cut and formed from 3/16" Steel and include two 3/4" thick shackle tabs. They are winch ready using the market standard 10" x 4.5" bottom foot mounting profile and are compatible with the Warn Zeon and Warn Powerplant winches. JCR Bumpers accept factory fog lights or aftermarket equivalents.

Rugged Ridge® 3” Round Side Tube Steps

These 3” tube side steps from Rugged Ridge® are custom designed for the features of the JK Wrangler. Rugged Ridge® Tubular Side Steps in gloss- or textured black feature special e-coated, .07” wall steel that is “thick source” powder-coated for a tough chip resistant finish. The special e-coating provides double rust protection as it bonds to the metal creating a protective layer found nowhere. These Steps feature a no-drill installation. All Tube Step Installation brackets are constructed of durable 3/16” powder-coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are installed on top of the tube and the ends are welded - no exposed metal to rust. Sold as a pair.

Rugged Ridge® 4.25” Oval Side Tube Steps

All of the the Rugged Ridge® Side Tube Steps are custom designed for the features of the Jeep® Wrangler JK. The high polished stainless version provides a mirror shine finish, whereas the black textured version compliments the structure of the factory flares. Don't just think Off Road. This is a must for every Wrangler to protect the very exposed side panel. No more “in-the-parking lot-dents”. You may need the step, especially when you lift your Wrangler or run bigger tires. Sold as a pair.

07-17 2-Door Wrangler	JCR JKSL-CRL-2D-PC	\$925.00

Poison Spyder Brawler™ Rockers

Poison Spyder's Brawler Rockers use a distinctive "mini boatside" profile that maximizes ground clearance while providing unmatched rocker protection for your Jeep. Brawler Rockers use a two-piece design, with the upper section conforming the subtle curvature of your JK's body, similar to our JK Body Armor. The Brawler Rocker adds a second section that protrudes 3 1/4-inch from your Jeep's body to fend off obstacles and act as a rub rail and entry step. This second piece is angled to maximize ground clearance and integrates perfectly with our JK Crusher Flares. Oval lightning holes along the length of the boatside section provide great Poison Spyder looks while allowing access to hose out mud and debris after a day on the trail, and beefy 3/16-inch thick internal gussets provide ultimate strength to withstand the biggest impacts without deformation.

Bare Metal	Part No.	Price

R-SE Retractable Step Sliders

The R-SE Step-Slider step will drop to allow access when the door is opened. Upon closure the step returns to the home position. The step allows for access to the front and rear doors while adding protection. The supplied wiring harness includes a manual operation switch if the doors are removed as well as a system shut off if complete disable is required. (Recommended whenever the jeep is in 4wheel drive) In the event that the step comes in contact with an object while traveling in the down position, the step will stop and return to its home position upon closing the door.

Application	Part No.	Price
07-17 4-Door Wrangler	RSE BD-SS-100-JK4	\$1,800.00
07-17 2-Door Wrangler	RSE BD-SS-100-JK2	\$1,800.00

Rugged Ridge® XHD Rock Sliders with Integrated Steps

The innovative one-piece design is precision manufactured from CNC-laser cut 3-mm steel plate and finished with a tough black textured coating. Each Rock Slider also features an integrated four-inch step making climbing in and out of Jeeps easier, especially when its lifted. The XHD Rock Sliders are designed to function with most aftermarket and stock fender flares and are easy to install with no drilling required. To protect your vehicle's finish, rubber gaskets are utilized to cover and protect the paint and body panels along the door sill areas.

Application	Part No.	Price
07-17 Wrangler 4-Door	OM 11504.18	\$695.00

Power Step in Up Position

AMP Research PowerStep™

AMP Research PowerStep™ is simply the world's most advanced running board system that reduces Step Heights by 13". The PowerStep™ goes into action when it receives an electronic signal from your Jeep® factory door sensors, then it extends to a comfortable entry/exit height in under one second. When you have safely entered or exited the Jeep® and closed the door, the PowerStep™ quickly retracts out of sight, hidden flush with the rocker panels to ensure a clean, original look and maintain ground clearance. Sold as a pair.

- Kit comes with everything you need for easy installation
- OEM quality components backed by 5-year/60,000 mile warranty
- Extruded textured aluminum steps support up to 600 lbs
- Extends further for more natural step-in/out
- Rugged electric motors tested from -40F to +200F

- Integrated LED Light for safe night time entry
- Proudly Made and Manufactured in the USA!
- Motor is unaffected by ice, snow and mud
- Anti-pinch technology prevents steps from closing on obstructions
- High-strength, die-cast aluminum-alloy linkage arms

Rugged Ridge® XHD Modular Front Bumper

The XHD Basic Winch Mount allows the accommodation of almost any aftermarket winch. The "Basic Mount" comes with two enclosed D-Ring mounting brackets for "Hummer" like shackles. The bumper mounts close in on the frame rails, drawing the bumper closer to the body and increasing the approach angle. The narrow overall width gives enormous clearance for the front tires. This modular system allows the attachment of any accessory listed on the left. This Modular Bumper fits all 97-06 Wrangler.
