

9.5cti Contactor Winch

This winch is the preferred choice on our FORTEC® Custom Jeeps®. The 9.5cti packs 9500lbs of pulling capacity into a massive aluminum die-cast body. Seals at the key points provide extreme-duty water resistance. A generation II Bosch motor delivers just the right balance between torque and speed. The thermometric indicator gives the operator information about motor temperature during the winching operation.

Application	Part No.	Price
9.5cti with Steel Cable	WA 97550	\$1,350.00
9.5cti with Synthetic Rope	WA 97600	\$1,600.00

VR Series Self Recovery Winches

The Warn® VR series are the perfect winches when you are on a budget. Choose between a stout 8,000 lb., 10,000 lb. and 12,000 lb. pulling capacity and plenty of performance. These winches are big on power and big on value.

Application	Part No.	Price
VR 8000 with Steel Cable	WA 86245	\$500.00
VR 8000 with Synthetic Rope	WA 87835	\$750.00
VR 10000 with Steel Cable	WA 86255	\$600.00
VR 10000 with Synthetic Rope	WA 87840	\$850.00
VR 12000 with Steel Cable	WA 86260	\$800.00

Warn® ZEON™ & ZEON™ Platinum Winches

The next generation of winches is here: WARN® ZEON™. With a modern rugged design, upgraded internal components, and increased performance and durability, ZEON™ is a new name from the most trusted name in winches. With a bold look and power to match, the ZEON™ is like nothing you've ever seen before. Don't let the good looks fool you. Warn has packed the ZEON™ winch with all the performance features off-roaders said they needed most. From a heat-dissipating brake down to an incredibly smooth planetary gear train, this winch is ready to hit the trail. The 8,000 lb. pulling capacity, combined with a fast line speed makes this winch the perfect choice for your Jeep®. Convertible control pack can be attached to the winch or remotely mounted, allowing for various winch mounting options and looks (Relocation kit required for remote mounting and sold separately). Will not fit Warn Elite Bumpers. Available in 8,000, 10,000 & 12,000 lbs with steel cable or synthetic rope. Warn has even taken customer feedback and applied it on a brand new level: introducing ZEON Platinum™. Featuring the Advanced Wireless Remote—the new command central control. With remote clutch, vehicle battery feedback, and even auxiliary controls for lights and more. Combine this with a new high-performance package and extreme waterproofing and you have the toughest, most technologically-advanced winch on the trail today.

**02****PowerPlant Dual Force**

This winch/ air compressor combination gives the user the ability to inflate tires (4 x 35" tires in under 8 minutes), power air tools, inflate recreational items plus have the ability to recover a vehicle. The HP model has a 9,500Lb line capacity, 125' of wire rope. The HD has a 12,000Lb line capacity, 80' of wire rope. All units feature a 4.6hp Gen II motor, a premium air compressor with high flow ratings and 100 psi max pressure switch and an on board 1/2 gallon air reservoir with built in intercooler. Included are 25' coiled nylon air hose, hand held control with thermoelectric LED, quick connect couplers, tire gauge and dual air chuck.

Application	Part No.	Price
9500 lbs with Steel Cable	WA 91800	\$1,725.00
12000 lbs with Steel Cable	WA 91801	\$1,815.00

**9.0Rc Rock Crawling Winch**

The 9.0Rc is a short-drum, 9,000 lb. capacity winch that features a 4.8 hp Series Wound Motor for fast line speeds. An exclusive, multi-segment Cam Actuated Brake gives positive operator control during winching. The 9.0Rc comes standard with 50' of 3/8" diameter synthetic rope. Other features include a chromate undercoating and gloss red paint that provides superior corrosion resistance, a rugged 360-degree swivel hook and thimble, an aluminum hawse fairlead, extreme duty winch sealing and a "Ballistic Nylon" Sliding Sleeve that provides extra protection against abrasion and wear. Comes with synthetic winch rope.

Application	Part No.	Price
9.0Rc with Synthetic Rope	WA 71550	\$1,600.00

Winch Plate for 10th Anniversary, Rubicon X and Rubicon Hardrock Edition

02

Raised Winch Plate for 87-06 TJ & YJ Tubular or Oversized Bumper

03

Standard Winch Plate for 87-06 YJ & TJ Factory Bumper

Rugged Ridge® Winch Mounting Plates

Finished in black powder-coated for durability. All mounting hardware is included. The plate supports all common winches. Made from 1/4" Steel. The first winch plate is for JK owners that have the 10th Anniversary RUBICON Bumper MP 82213653. The second winch plate is for 87-06 Wrangler YJ & TJ and is slightly raised to avoid roller fairlead interference with tubular and oversized bumpers. The third winch plate is for regular YJ and TJ Wrangler that keep their factory stock bumpers.

Rugged Ridge Winch Roller Fairlead & Light bracket

Protect your winch cable with a roller fairlead. The roller fairlead guides the cable onto the winch drum and extends cable life. This model includes light mounting holes on the top for aftermarket lighting.

Roller Fairleads	Part No.	Price
Without Light Mounts	OM 11238.02	\$50.00
With Light Mounts	OM 11238.03	\$80.00

WARN 12,000 lbs Snatch Block

Used properly, the multi-purpose snatch block can double the pulling power of any winch or change your pulling direction without damaging the rope. Reduce heat buildup and amp draw during recovery. Coated with Cerakote and able to accept both wire and synthetic rope.

Application	Part No.	Price
12,000 lbs Snatch Block	WA 92188	\$100.00

WARN 18,000 lbs. Winch Hook

Made from ultra-strong forged steel, the WARN Premium Winch Hook with Cerakote coating provides maximum protection and reliability against wear and abrasion. Uniquely designed with built-in beverage opener.

Application	Part No.	Price
18,000 lbs Winch Hook	WA 92091	\$75.00

Factor 55 Winch Line ProLink (Loaded)

Eliminate the winch hook and replace it with a safer and stronger D-ring shackle thimble from Factor 55. These thimbles, aka "ProLink", work with steel cable or synthetic winch rope and there is no splicing required making installation only a few minutes. Made from billet aluminum construction these come with an upgraded titanium shear pin. Fits standard 3/4" d-ring shackles. Bottom Rubber included. Made in USA.

FACTOR 55

Application	Color	Part No.	Price
All Jeeps®	Black	FA 00015-04	\$150.00

All Jeeps®	Silver	FA 00015-05	\$150.00

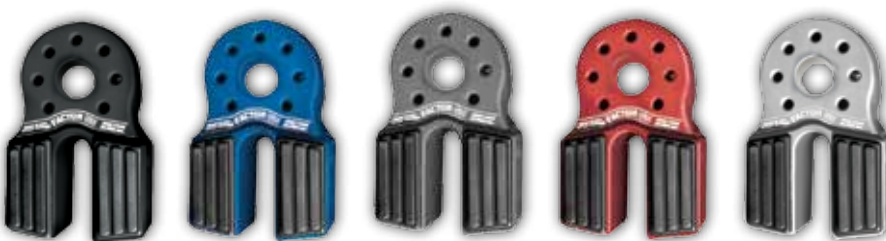

FACTOR 55

Factor 55 HitchLink

These lightweight HitchLinks function as recovery tow points. They are rated at 9500 lbs and are made of machined 6000 series aluminum, weighing only 1.9 lbs compared to the 8 lb steel versions that are usually being sold in the industry. They fit all standard 2" receivers and most common 3/4" screw pin shackles & D-rings. Black and Red versions are powder coated, while others are anodized, both providing oxidation protection. Made in the USA.

Application	Color	Part No.	Price
All Jeeps®	Black	FA 00020-04	\$ 80.00
All Jeeps®	Blue	FA 00020-02	\$ 80.00

All Jeeps®	Red	FA 00020-01	\$ 80.00
All Jeeps®	Silver	FA 00020-05	\$ 80.00

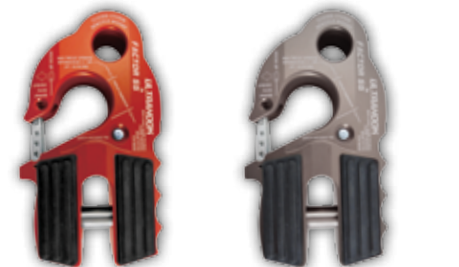

Factor 55 Winch Line FlatLink (Loaded)

Eliminate the conventional winch hook and replace it with a safer and stronger FlatLink shackle thimble and D-ring. With less than 1.75 inches of thickness, the FlatLink will work with all roller fairlead license plate mounting brackets. Conventional winch hooks can cut and fray recovery straps and often allow strap ends to escape during momentary slack cycles of a typical winching recovery. Screw pin shackles do not allow strap loops to escape due to the secure screw pin attachment. The FlatLink does not require splicing and is compatible with steel cables or synthetic ropes up to 3/8 inches in diameter. The cable eye is retained in the FlatLink by a 5/8 inch diameter grade 5 steel double shear pin and internal snap ring. The Rubber Guards protect alloy fairleads and are securely attached to the FlatLink with 4 barbed tips. The FlatLink stows neatly against either roller or Hawse type fairleads and is designed to be used with common 3/4 inch shackles. It is constructed of 6000 series billet aluminum and is anodized/powder coated in 5 different colors. Made in the USA.

Application	Color	Part No.	Price
All Jeeps®	Black	FA 00050-04	\$140.00
All Jeeps®	Blue	FA 00050-02	\$140.00

All Jeeps®	Red	FA 00050-01	\$140.00
All Jeeps®	Silver	FA 00050-05	\$140.00

Factor 55 UltraHook

Featuring Industry first Closed System Shackle Mount hole machined into the body of the hook, safety latch retraction pocket resulting in a clear throat opening, integrated secondary safety latch locking feature latch locking pin stored in the body of the UltraHook which can be removed and inserted in to the hook tip, locking the latch into place. UltraHook also includes EPDM rubber pads for fairlead protection, titanium double shear pin, and a finger grip feature that promotes proper "Hook Up" orientation. The UltraHook is the first winch hook that can be stored against your fairlead protecting either your hawse or roller style fairlead from a metal to metal connection.

Application	Color	Part No.	Price

Class III Hitches

The Wrangler TJ has a high-mounted chassis, most drawbar style hitches do not line up correctly with the trailer coupler. And since no two trailers seem to have the same optimum hitch height, you need flexibility. Receiver hitches allow you to use a ball mount that drops or rises to the correct hitch height when towing.
