Warrior™ Body Armor

Warrior™ Products offers the broadest selection of base materials and surface finishes in its line of Body Armor Exterior Protection. In addition to its signature aluminum diamond plate material, most accessories can also be special ordered in black powder coated finish. All part numbers that end with "PC" are powder coated black. A selection of Warrior™ accessories are also available in a flat structure black powder coated 12-gauge steel and part number starts with "S". Warrior manufactures an endless line of products. Please check out their website for more applications.

**01 Rugged Ridge® Magnetic Protection**

Sometimes when you hit the trails, the trails hit back - and hard! That is why Rugged Ridge® created this Magnetic Protection Panel kit to protect your Jeep's paint while on the trails. Easily removable, this fifteen piece kit was designed to provide full coverage for the body of your Jeep®, to keep your mind at ease and your paint job flawless. Featuring a durable matte black vinyl finish, each panel is constructed of 16 gauge (.060 inches) thick magnetic sheet material for a tough finish and long lasting use.

Poison Spyder Corners

Poison Spyder Crusher Corners™ for the JK provide ultimate protection for the vulnerable rear corners of your Jeep JK. Crusher Corners™ are full-corner protectors, extending from the rear tailgate, around the side, over the wheel openings and all the way to the door openings. Made of rugged 1/8" steel, JK Crusher Corners™ may be used with the stock JK fender flares or with Poison Spyder's JK Rear Crusher Flares™ for the ultimate combination of rear corner armor.

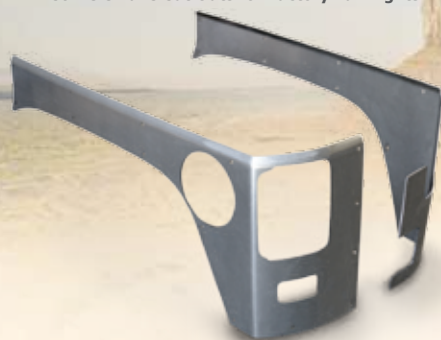

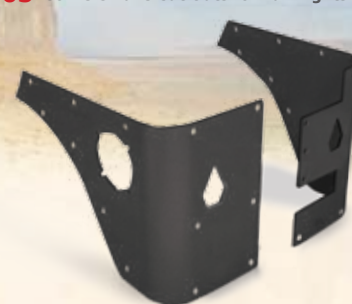

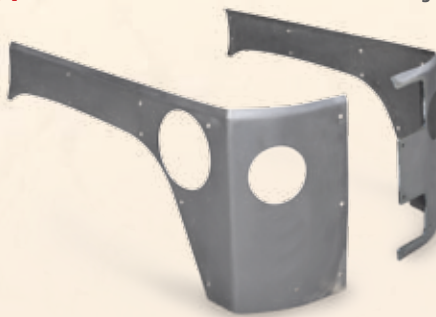

Smittybilt® XRC Gen2 Fender Skins & Flux Fender Flare Guards

The thin factory sheet metal of the 07-17 JK Wrangler and Wrangler Unlimited often leave something to be desired on the trail. Smittybilt has come to the rescue with their complete line of XRC rear quarter panel and fender skins. The XRC Body Armor Skins are now available for the front fender panel section and on the rear quarter panels of the JK. The skins conform perfectly to the OE body panels and provide maximum impact and abrasion protection with 1/8 inch cold rolled steel construction.
