Dual Exhausts

Decreases back pressure & allows the engine to produce more torque and thereby increased engine horsepower by typically 10 to 12 hp. The system is made of stainless steel for weight efficiency and ceramic coated for longevity.

GIBSON®	Part No.	Price
01 18-up Wrangler JL, Black	GIB 617307-B	\$ 699.99
18-up Wrangler JL, Stainless Steel	GIB 617307	\$ 599.99

JT Gladiator, Aluminum	MBR S5538AL	\$ 549.99
JT Gladiator, Stainless	MBR S5538304	\$ 849.99
Installation Time for Wrangler JL		1.5 Hours
Installation Time for JT Gladiator		2 Hours

07

Throttle Body Spacers

Enhances off idle to mid range performance and efficiency. The "Helix Bore" design creates a spinning action of the incoming air. As air passes through the throttle body, the helical effect causes the air molecules to organize and maintain high velocity which optimizes mixture and performance.

18-up JL & JT Gladiator 3.6L	Part No.	Price
07 AFE® Silver Bullet	AFE 46-35008	\$129.99
08 AIRRAID® POWERAID	AIR 300-637	\$159.99
Installation Time		1 Hour

09

Calibration Modules

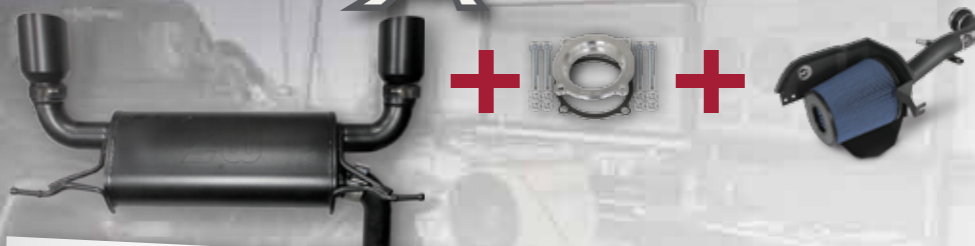

Correct your speedometer after installing larger tires or changing the axle and transfer case gear ratio with the a low cost effective calibration module AEV ProCal Snap or Z Automotive module tool.

+35.26 HP INCREASE

FORTEC4x4® Power Pack

Old school always works. Colder, exhilarated air and less pressure can tickle a noticeable 35 more Horses out of your 3.6L JL Engine. Introducing the brand new FORTEC4x4 Power Pack for 2018 Wrangler JL.

We combined the JL specific aFe® Cold Air Intake System and Throttle Body Spacer with our FORTEC® exclusive "MAGNAFLOW® Exhaust Kit with removable Tips" and were surprised when we saw the results from our 3 dyno test runs. Please see below.

I drive my 2018 Wrangler everyday and really like this upgrade. My 2018 Wrangler JL has 35" tires, factory gears and I can feel a pleasant difference. The power increase is nice and even. Our MAGNAFLOW® exhaust kit gives you a very gentle reminder that your Jeep® has a Custom Exhaust kit. (Andreas Ulber, President FORTEC Inc.).

AFE® Cold Air Intake Kits

Increase torque max gains. These intakes improve volumetric efficiency for better performance. Sturdy 18 Gauge Powder-Coated One-Piece Heat Shield blocks performance-robbing engine heat. The Magnum Force and Momentum GT use the Pro 5R filters and the Momentum HD EcoDiesel uses the 10R Filter.

18-up JL & JT Gladiator	Filter	Part No.	Price
11 Magnum Force 3.6L	Pro 5R	AFE 54-13002-B	\$394.00
Magnum Force 2.0L	Pro 5R	AFE 54-53029R	\$394.00
12 Momentum GT 3.6L	Pro 5R	AFE 54-76217	\$435.00
Momentum GT 2.0L	Pro 5R	AFE 50-70035R	\$435.00
Momentum HD 3.0L EcoDiesel	10R	AFE 50-70062T	\$435.00
Installation Time			1 Hour

KLEINN™ On Board Air

A complete OBA system that will allow you to air up to 37" tires at any location. No more waiting to borrow a friends compressor after a long day of wheeling or waiting in line at a gas station to refill. On board convenience that can do so much more. Upgrade to air horns, run small air tools and add air lockers.

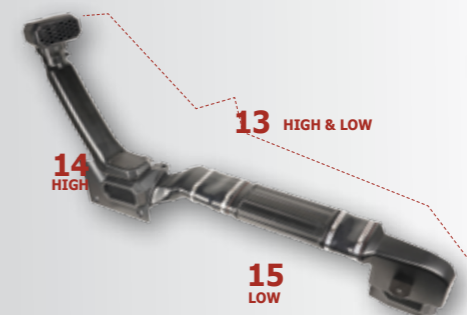

Application	Part No.	Price
18-up Wrangler JL	KLN JL-JK-OBA	\$779.95
Installation Time		3 Hours

S&B® Cold Air Intake

Engineered to minimize air restriction and increase air flow far better than your stock system. Comes with an enclosed one piece air box that protects the air filter from dirt and keeps out unwanted engine heat. The signature clear lid provides a rubber lid seal to keep out more of that power robbing engine heat.

Application	Part No.	Price
18-up Wrangler JL, 3.6L	S&B 75-5121	\$329.00
18-up Wrangler JL, 2.0L Turbo	S&B 75-5129	\$329.00
Installation Time		1 Hour

RUGGED RIDGE® AMFIB Snorkel

AmFib Snorkel System for Wrangler JL & Gladiator JT models and you know this is not your typical snorkel. We designed the Low Mount Snorkel to make a visual splash by devising a base that blends seamlessly with the factory cowl panel and then topped it off with a low air intake.

18-up JL & JT Gladiator	Part No.	Price
13 Low & High	OMX 17756.31	\$599.99
14 High (ONLY)	OMX 17756.36	\$152.99
15 Low	OMX 17756.35	\$499.99
Installation Time		3 Hours

MOPAR® Cold Air Intake

Cold Air Intake featuring Jeep® brand logo and reusable black and silver drop-in filter. Draws fresh air from outside vehicle from hood cut-out to increase engine performance. Includes bezel to finish cut-out.

Application	Part No.	Price
18-up Wrangler JL	JEP 77072433	\$444.99
Installation Time		1 Hour

MOPAR® Snorkel

This Snorkel Kit is specifically designed for the Wrangler JL and fits both the 2.0L and 3.6L gasoline engines. This complete kit will allow users to direct cool air into the engine while driving under conditions that are a threat to the normal air inlets. Installation is permanent.

Application	Part No.	Price
18-up JL & JT Gladiator	JEP 82215350	\$664.99
Installation Time		3 Hours
