

**MOPAR® 2.0" Suspension Lift Kit with FOX Shocks**

Developed by Jeep® brand engineers. The kit includes 2.5" diameter aluminum body mono tube FOX® Shocks for cooler operation. The Lift Kit increases articulation and tire-to-ground contact and the longer front control arms optimize caster suspension tuning for on-road without compromising off-road capability. It works with electronic stability control although unique alignment specifications are required.

**FOX® 2.0 Performance IFP Shocks**  
When driving your Jeep on the trails or bumpy roads, you need to make sure you have the proper shocks to maximize comfort. With the mono-tube Fox Racing Shox Front 2.0 Performance Series IFP Shock you will have a smoother drive in your Wrangler JL or Gladiator JT. The mono-tube shock has oil in the working chamber and nitrogen gas in the storage chamber. The internal valves are sealed with a wiper seal, scraper seal, and a redundant sealing pack system main seal which provide leak-free smooth oil flow. These shocks will not fade since the JM92 advanced suspension fluid oil does not allow air bubbles to form, even during high-speed compressions.

Installation Time		<b>1 Hours</b>

**TERAFLEX® FALCON SP2 2.1 Monotube Shocks**  
Complete the lift in your Jeep with the Teraflex Volume Series 2.1 Monotube Shock Kit. This complete kit is specifically tuned for the four door Wrangler JL. Using proprietary Volume Optimized Damping (VOD), Falcon Series 2.1 shocks offer race-inspired performance for both on road comfort and off-road operation. The VOD design offers increased low speed control, and reduces high speed bottoming out. Falcon shocks are fully rebuildable and factory serviceable. For increased suspension articulation, Teraflex uses built in offset upper spacers and lower eyes. This allows the shock a full range of motion without binding. Falcon shocks are backed by Teraflex's 3 Year Limited Warranty. Installation Note: Bump Stops are required with the 2-3.5 inch shocks

**TERAFLEX® FALCON SP2 3.1 Piggyback Shocks**  
Installing a set of Falcon SP2 3.1 Piggyback Shocks on your Jeep Wrangler JL will noticeably improve the ride quality both on and off-road. The piggyback design along with the 2.25" 6061-T6 aluminum body allows more oil and gas capacity which cools faster and prevents loss of performance. All Falcon SP2 Shocks feature Mode Adjust tuning compression and rebound by twisting the shaft clockwise or counterclockwise when fully extended. A Fast Adjust Cartridge Upgrade Kit can be installed at any time to turn this set of shocks into the 3.3 series giving more adjustability on-the-fly.

**TERAFLEX® FALCON SP2 3.3 Fast Adjust Piggyback Shocks**  
Get the best in fine-tuned Jeep suspension performance with the Teraflex Falcon Series 3.3 Fast Adjust Piggyback Shock Kit. These fully adjustable reservoir shocks are completely bolt on, and designed specifically for the four door JL Wrangler. Falcon Series 3.3 Shocks feature a fast knob with three compression settings. The middle setting allows you to fine tune your shocks with an eight position Micro Adjust Dial. This full range of adjustability allows you to set your shock damping to precisely match your terrain and driving style. Teraflex uses their proprietary Volume Optimized Damping (VOD), which offers race-inspired performance, on road comfort, and off-road performance all in one package. The VOD design increases low speed control, and reduces the chance of high-speed bottoming out. Unlike universal shocks, Teraflex designed their Falcon Series 3.3 Fast Adjust Piggyback Shocks with the Wrangler JL in mind. The front shocks utilize horizontal reservoirs for better wheel well clearance. For increased suspension articulation, Teraflex uses built in offset upper spacers and lower eyes. This allows the shock a full range of motion without binding. Falcon shocks are backed by Teraflex's 3 Year Limited Warranty, and are fully rebuildable and factory serviceable. Installation Note: Bump Stops are required with the 2-4.5 inch shocks

20-up JT	Rear	Lower TER 1417590	<b>\$545.99</b>
Installation Time (Pair)			<b>1.5 Hours</b>

**TERAFLEX® HD Forged Adjustable Track Bars**

Designed to keep the front axle centered. After adding a lift and larger wheels and tires, the stock track bar will see more force and may even cause the axle to be out of center. With a Teraflex HD Forged Front Adjustable Track Bar you can center the axle to improve steering response and the heavy-duty upgrade will provide more strength to avoid bending and damage flexing.

Application	Lift	Part No.	Price
18-up JL & JT	Front	0.0"-6.0" 1753420	<b>\$336.99</b>
18-up JL	Rear	0.0"-6.0" 1754420	<b>\$336.99</b>
20-up JT	Rear	0.0"-6.5" 1764420	<b>\$324.99</b>
Installation Time			<b>1 Hour</b>

**RC® Forged Adjustable Track Bars**

Improve the ride in your Wrangler JL with the Rough Country Front Forged Adjustable Track Bar. This heavy-duty track bar features a fully adjustable design and Clevite brand rubber bushings, for a silent and comfortable ride. The 1.25" outer diameter solid steel forged bar provides unrivaled strength and durability.

Application	Lift	Part No.	Price
18-up JL & JT	Front	2.5"-6.0" RCS 11061	<b>\$149.95</b>
18-up JL	Rear	0.0"-6.0" RCS 11062	<b>\$149.95</b>
Installation Time			<b>1 Hour</b>

**MAXTRAC® Adjustable Front Track Bar**

When a Jeep® is lifted the axle is will be off-center. The MaxTrac® front adjustable track bar will re-center the axle under the vehicle at a wide range of lift heights. Constructed from forged steel for extreme strength and is just what you'll need to hit the trails hard with a lift.

Application	Lift	Part No.	Price
18-up JL & JT	Front	2.5"-6.0" MAX 999800	<b>\$214.99</b>
Installation Time			<b>1 Hour</b>

**YEDI® HD Adjustable Front Track Bar**

The strongest and most reliable track bar on the market for the Jeep® Wrangler JL and Gladiator JT. When you install a lift on your Jeep® the factory track bar will be constantly pulling to one side, which does not make for a comfortable driving Jeep®. This stout track bar will keep you tracking in a straight path.

Application	Lift	Part No.	Price
<b>05</b> 18-up JL & JT	Front	0.0"-6.0" STS 75040001	<b>\$259.99</b>
