

RAPID RINSE STATION™

Durable construction

The Rapid Rinse Station is made of chemical-resistant plastic. A stainless steel spray nozzle ensures trouble-free operation.

Standard Features

- EASY** – Simple to disassemble and clean
- CONTROL** – Easy one-push operation
- SAFE & STRONG** – Stainless steel nozzle for long-lasting, trouble-free operation
- VERSATILITY** – Effective for rinsing any container of 8" diameter or smaller

Additional Options

- RINSER ONLY** – Rapid Rinser also available for purchase separately
- ERGONOMIC** – Quick-disconnect water supply coupling

Smart Design

Compact and low-profile, the Rapid Rinse Station fits neatly next to your Blendtec blender or dispenser. It features a closed valve system that prevents water leakage when water pressure drops.

Expanded coverage

Upon activation, water immediately covers 70% of the rinsing area (compared to only 30% in other rinsers).

Easy and versatile

Use the Rapid Rinse Station to rinse any container with a diameter of 8" or less. Pitchers, blender jars, measuring devices—anything! A gentle push on the platform is all it takes to activate the spray.

Rapid Rinser

Available for purchase separately. By itself, the Rapid Rinser typically sits in a sink or basin, where rinsewater can drain effectively.

120° Coverage

Spray nozzle offers 120° coverage. Powerful jets clean containers in mere seconds.
