

Introducing
"The Dancer II"

Noel's New Bronze Sculpture

"Sculpting goes beyond painting. Several hours can pass but the instant gratification of creating and seeing a 3D form become reality in the moment, makes it impossible to stop; it is almost addictive."

After two and a half months of total dedication and love, this is the final product.

I hope you enjoy it as much as I enjoyed creating it.

*The Sculpture measures 33" high including the 12x12x2.5" black onyx base, and weights 48 lb.
This is an Edition of 18 bronzes each signed and numbered. Each bronze also has the Run Art Foundry stamp.
The cost of each bronze is \$8,750.00, which it includes the costume made wood crate, shipping and handling.*
