Multi Chemical Peel Treatment

R430 | 45min

The Sknlogic Multi Peel Chemical peel system is a multi-purpose, time dependent superficial peeling agent with 50% Alpha and Beta Hydroxy Acids. It provides a safe, controlled and predictable procedure that gradually removes surface skin cells resulting in improvement of skin texture. The Sknlogic Multi Peel utilises both Alpha and Beta – hydroxy acids with other active ingredients to treat the skin. The treatment is finished with Omega Face oil with omegas 3, 5, 6, 7 & 9 to restore the skin's barrier function.

(For clients wanting to take the next step in skin health and have been on the Sknlogic range for longer than 8 weeks). For best results a cycle of one treatment per week for 6 - 10 weeks is recommended.

Optional Add-on

Sknlogic Soothing and Hydrating Peel Off Masque.

Collagen Induction Therapy (Micro Needling)

R1050 | 90-120min

This micro needling service improves fine lines, wrinkles, acne scars, hyper pigmentation stretch marks and other conditions by stimulating your skin's natural ability to repair itself. SKNpen is a medical-grade tool that works by creating a series of microscopic channels into the skin to stimulate collagen and elastin production. Your skin will look and feel healthier with little to no downtime. Omegas 3, 5, 6, 7 & 9 is infused deep into the skin to restore the skin's barrier function. Finished with a skin booster with 15% Vitamin C or 10% Niacinamide or 1% Retinol and skin replenishing peel off masque.

(Must be on the Sknlogic range for longer than 8 weeks). Treatments can be done once a month.

Optional Add-on

Add neck and chest to treatment
