New for 2018 The fastest growing fuel option on the Market **Pellet Grilling**

Introducing the Vision Grills Pellet Quickchange™ Insert.

Vision is changing the game, again, with our groundbreaking Patent Pending Pellet Insert, providing you with yet another fuel option, catering to your preferences.

Unlike metal Pellet Grills, you get these Kamado Pellet advantages:

- Uses 50% less fuel verses other Pellet Grills.
- 40/50% hotter than other Pellet Grills.
- Simple control panel - Set your temp, walk away.
- Sears, Grills, Smokes, Bakes.
- Due to Vision's ceramic insulation, you can cook in extremely cold weather. No blanket required to keep in heat
- Easy to inventory: 1 Grill-3 fuels.
- Pellet Insert retrofits Vision grills that are already in the Market Place.
- No assembly required, just slide it in!
- Meat Probe included.
- Easy to clean - just pull out the Pellet insert and out dump the ash.

icon

Icon started by refining the Kamado grill industry with our innovative, removable Ash Drawer, Color-Coded HeatZone Controls, and exciting grill color options.

We took it further by pioneering our revolutionary QuickChange™ Gas Insert, allowing for easy switching between fuels.

Now, Icon is changing the game, again, with our groundbreaking Pellet Insert, providing you with yet another fuel option and catering to your preference.
