

EcoFan[®]

Subfloor Ventilator Powered by Air iQ

EcoFan[®] powered by Air iQ is a quality subfloor ventilator with powerful air flow. It removes damp, stale air and odours from the underfloor, replacing it with outside air.

- 
CONDENSATION MANAGEMENT
 Three preset fixed speeds can be used for the continuous and reliable reduction of damaging condensation.

- 
HUMIDITY DETECTION
 EcoFan's humidity sensor adjusts the speed setting based on the levels of humidity detected.

- 
HEALTHIER HOME
 Replacing stale air with outside air can help reduce household allergies and respiratory problems.

Product Specifications

Materials:	UV stable polymer

Why Subfloor Ventilation Matters

Effective ventilation is an important way to create a more comfortable, healthier and energy efficient home. EcoFan removes damp, humid air from your subfloor to keep your family and your home healthy.

Odour Reduction

A constant flow of fresh air helps with reducing odours

Energy Efficient

Low running costs

Moisture Management

Reduce the risk of moisture - related damage to your home

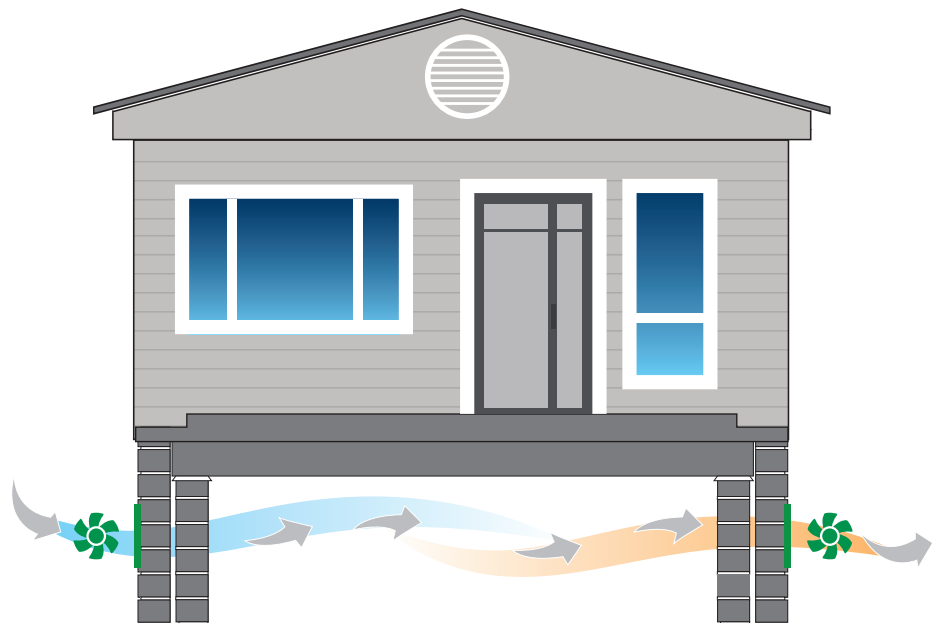

Improve Air Quality

Replaces stale and polluted air with outside air

Twin Pack for Effective Cross Ventilation

Two EcoFans work together to create a continuous and reliable flow of fresh air that protects against harmful moisture and condensation-related damage.

One EcoFan creates an inflow of fresh air into the subfloor, while the second EcoFan extracts the damp, stale air to improve underfloor air quality.
