

INTRODUCING

# S-BOX™ MINI-TR

2-Port “pop-up” Power Box  
TAMPER RESISTANT

FULLY SPLASH-TESTED FOR USE IN  
WET LOCATIONS and KITCHENS

Fully wired and ready to go, this product features LEGRAND TR sockets

IP55 rating

The S-Box™ Mini-TR unit is beautifully simple, but is also small and robust. It is constructed from solid steel, is easy to install, and is built to perform in the toughest of kitchen environments.

Its **instant** “pop-up” action delivers two tamper-resistant power outlets at the simple touch of a finger - when and where you want it!

For the Designer it gets even better! . . . because the S-Box™ Patent also includes the ability to customise the Top with a piece of matching work surface material while still being level with the counter and still lifting a different weight of top. The standard Stainless Steel top is beautiful anyway and suits most environments, but this extra “chameleon” feature is unique!

The possibilities are endless . . . !

**Ideal for:**  
KITCHEN  
BEDROOM  
OFFICE  
HOTEL

Patented **eco-friendly**  
**zero-energy** lift-drive

# TECHNICAL DATA
