1

Ensure the ground is properly prepared for placement of the Hourglass Mat. The surface should be firm, packed and level. Concrete, asphalt, patios or decking are ideal. (Do not place on grass.)

Place the Hourglass Performance Turf (A) flat on the ground.

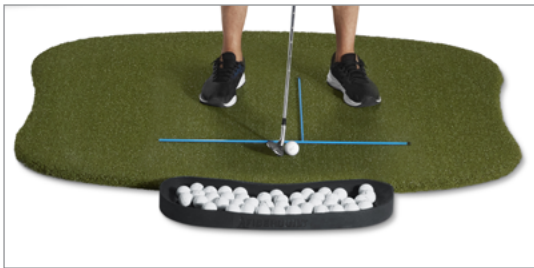

2

Butt the ball tray (B) up to the hitting end of the mat and fill with balls.

3

Use included rods (C) as desired for indicating target line, setting ball position, guiding swing path, etc.

4

For practicing tee shots with any club, place a real tee directly into the Performance Turf.
