

Practitioner Certification in Neuro Linguistic Programming Time Line Therapy™

- Are you wanting to understand more about those you work and live with?
- Do you understand what they are saying and how they think?
- Are you wanting to learn techniques for managing staff effectively by understanding what motivates and how best to understand them?
- If you are wanting to make some personal changes.

Then this program is for you.

What you will learn, will make significant changes in the way you respond to others and how you perceive those around you.

You will learn proven methods and models that increase effectiveness and emotional intelligence.

How you will learn is packed into 20 hours of pre-study audio recordings, two textbooks that demystify and clarify plus a practitioner manual that is your reference of NLP techniques and interventions.

You will attend 6 days of theory and practice broken up over three powerful weekends. There is an open book assessment, you will do this in your own time, but we suggest writing some answers in NOW with a pencil to get a feel of what you need to know.

Please dress for the success we expect to see you looking the professional that you are, it's not a relaxing day on the lounge, dress as though you have already made it.

We provide coffee/tea/milk and milk, you bring your snacks and lunch.

There is a fridge and microwave for your use and there are cafes nearby with the exception of Sundays.

Bring your favourite pens, notebook and your best smile and a winning attitude.
