

Dry eye disease is a common condition that occurs when there is a lack of sufficient lubrication and moisture on the surface of the eye.

SYMPTOMS OF DRY EYE DISEASE

- ✓ A burning or gritty sensation in the eyes
- ✓ Dandruff around the eyelids
- ✓ Light sensitivity
- ✓ Red, inflamed eyelids
- ✓ Contact lens discomfort
- ✓ Watery eyes
- ✓ Blurred vision
- ✓ Fatigued, sore, or heavy eyes

- An estimated **30%** of Canadians suffer from dry eye disease
- Approximately **50%** of patients walking into an optometrist's or ophthalmologist's office have dry eyes
- This condition can affect **anyone** of any age
