ROURKE'S e-Books

E-book Benefits and System Requirements

The Rourke e-book content is a web-based hosted delivery platform with XML authentication as a DRM tool, www.rourkeebooks.com. Rourke standard e-books can be accessed simultaneously by unlimited number of students.

Content is designed to run through HTML within a browser window or natively through the Mac or PC platform, using a PDF Reader.

All Rourke e-books are setup to take advantage to the many Mobile Readers including but not limited to: Nook, iPad, iPhone, Blackberry etc..
Our system requirements allow our standard e-books to work on almost any platform. (see below).

Our content is hosted on Amazon S3 servers and have a live running percentage of 99.5 %. All content is supplied in simple PDF e-book form.

Overall File Size:
The average size of a single e-book file is 2.5 megabits. This allows the files to store and serve the end user quickly and within 20 seconds or less. (This will also depend on the schools network and other variables.)

Windows requirements:
Operating system: Windows XP, Windows Vista, Windows 7-8
Web browser: Firefox 5+, Chrome 16+
Specifications: Pentium 4 2.0 GHz, Athlon64 3200, Core Solo 1.3 GHz 512 MB of RAM

Apple Computer requirements:
