

# TRAVELER GUITAR V2 HEADPHONE AMP

# 2

ELECTRONICS

Traveler Guitar's 2nd Generation Headphone amplifier empowers you to rock out at full volume—without disturbing the neighbors. Plug in your headphones and use the custom tap pot to cycle through clean, boost, overdrive, and distortion settings. Or, if you prefer, plug into an amp and blow the roof off the joint. Don't forget, you can also connect your mobile device to the aux-in and play along to your favorite tracks.

## FEATURES

- Clean, Boost, Overdrive, and Distortion settings
- 1/8 in. Aux-in for connecting your mobile device
- 1/8 in. Headphone jack
- Active EQ with  $\pm 12$ db EQ
- Automatically turns off when unplugged
