

MK- 10'6"

BLOCK CUT EPS

AVAILABLE DENSITIES:

*refer to density chart

STOCK STRINGER:

4mm poplar ply

Updated 5-6-16

SHAPER'S COMMENTS:

A blank made perfectly for your next longboard. With plenty of width and thickness it is perfect for a mellow cruiser or a high performance log. This blank is cut out of block EPS on a computer controlled hotwire machine to ensure the same blank dimensions everytime.
