

P62 Touch Screen Console

In this digital world, entertainment and information are powerful tools for creating an engaging experience in the cardio area, one that can set a fitness facility apart, boosting attraction and retention of new and existing members. It's time to elevate your cardio area beyond simply providing a personal television viewing screen for your exercisers.

The P62 touch screen console, available on the Experience™ Series 700 and 800 cardio lines, injects contemporary design and a premium networked fitness experience to the cardio floor, at a mid-tier price.

Furthering the value of this state-of-the-art console, networked units receive automatic software updates, refreshed content and new features without any action or expense.

When networked, the P62 is a direct-to-exerciser communication portal, allowing you an opportunity to build your brand, share information about activities and services, and strengthen the sense of community in your facility.

P62 Touch Screen Console

Product Features

- 1. Personalized Viewing with Remarkable Clarity**
Exercisers' proximity to the high quality screen gives them the crisp clarity and personalized viewing they expect from their home entertainment system.
- 2. Optimized for Use during Workouts**
Large and responsive motion controls are independent of the touch screen, enabling exercisers to alter the motion and resistance of their workout with ease.
- 3. Consistent Appearance across the Cardio Floor**
P62 shares the proven silhouette of the Precor console family to ensure a clean, contemporary appearance across the cardio floor.
- 4. A Platform Solution for Now and the Future**
All networked P62 consoles receive automatic software updates, refreshed content and new features without any action or expense on your part.
- 5. Integrated Asset Management**
Save time and effort with easy to access diagnostics and usage information through integrated asset management
