

# NOW ? WHAT ?

You've ordered your SWEATSHIRTS...

Paid your deposit and we have your completed tech packs. Officially the countdown starts now.

Here is what comes next.

## Time to get started.

Once we receive everything, you are placed in the queue for production. Our turn time is typically 60-75 days and we do our best to stick to that timeline.

That being said, there are things that can delay that timeline on your end so please reply promptly to any emails you receive from our production department.

## It's all coming together.

Between 21-30 days from now we will receive your trims package & a screen print strike-off for approval from our factory.

A trims package includes all custom hang tags and woven labels that are part of your design.

A strike off is made-to scale in your selected pantone colors on a swatch of our custom milled cotton.

Any changes needed to the trims or screen print are made in our office, you don't have to worry about a thing. If there are any changes to be made a second shipment will arrive 15 days from the date of comments submitted.

## Need a physical sample?

If a physical sample is required it will arrive 15 days after the trims and strike-off print is approved.

*\*\*please be aware that there is an additional fee for this and this pushes the timeline to 75-90 days for production\*\**

## Or not...

Assuming there is no physical sample needed your production run will be completed and sent via air freight 60-75 days from the date of your deposit paid and submitted completed tech packs.

## On it's way to you.

Pending any unforeseen complications 10 days later the shipment will arrive at your address bagged, tagged and ready to go!
