### SCHOOL WATCH METHOD

# EASY-TO-READ TIME TEACHER WATCH

## SEDADATE MINISTES

Minutes are visually distinct from hours in order to avoid any confusion

# COLORED HOURS

Hours are color coded and match the inner wheel colors. So children can easily see on the dial where the hour starts and ends thanks to the colored wheel

## EXPLAINING CLOCKWISE DIRECTION

A little star counts off the seconds instead of a traditional second hand. The little star is far easier for young children to track, and ensures seconds won't be confused with hours and minutes. Use the faster moving little star to easily teach children about the clockwise rotation of the hands

## YOUR SCHOOL WATCH

### STADT & SET THE TIME

Remove guard from crown. pull crown all the way out and turn to correct time. Push crown in to start.

### WATER & SHOCK RESISTANCE

Because we know that children like to play with water, the School Watch is 3ATM water resistant (splash proof). The School Watch is splash proof only as long as crystal, crown, and case remain intact. The School Watch is not a swim watch and should not be used for swimming and showering

# TO MAINTAIN WATER RESISTANCE, DO NOT PULL

OUT THE CROWN WHILE DLAYING WITH WATER Thanks to the high quality quartz Japanese movement, the School Watch is also shock resistant so kids can continue to enjoy their busy life with no risk for the watch

#### RATTERY

We strongly recommend that a retailer or jeweler replaces the battery. Battery life estimates are based on certain assumptions regarding usage; battery life may vary depending on actual usage.

DO NOT DISPOSE OF BATTERY IN FIRE, DO NOT RECHARGE, KEEP LOOSE BATTERIES AWAY FROM CHILDREN SEEK IMMEDIATE MEDICAL ATTENTION IE A BATTEDY IS INCESTED.

### DESIGNED IN THE USA

School Watch is designed in the USA but to keep our price affordable for everyone, School Watch is assembled in China

# RECYCLING

Do not dispose this watch in the household waste. check with your local authority for recycling advice and facilities

# WARRANTY
