Material: Stainless Steel & Sapphire Glass
Made in China

Time: 1:00:02

Time: 5:08:12

Time: 3:36:15

Seconds
Hours
Minutes

INSTRUCTIONS

When you first unpack your watch, remove the plastic stopper, set the time and push the crown into position. The V02MKII uses three 'compass needle' hands, the short hand representing the hours and the long hands the minutes and seconds, as on any other watch. The short and long hands, in either red or white, represent the minutes and the hours; the black hand, with the red or white tip, represents the seconds. Match the colour of the needle shown to the number with the same colour on the dial. Look at the examples above or visit www.voidwatches.com to find out more.
