

N-Acetyl-Cysteine

A stable form of cysteine and an important precursor to the antioxidant glutathione

Size: 60g powder. For use in compounding only.

Directions for use: NAC has been used in clinical trials in dosages ranging from 250mg-8g daily. Please use as directed by your healthcare practitioner. A level measure of the spoon enclosed in the jar is equal to approximately 1g.

Storage Guide: Store below 25°C in a cool and dry place.

Co-Prescribing Considerations:

- Adalase
- UltraLiv
- Neuro A
- BioFlam

Product Highlights

High quality source of NAC powder

Preferentially incorporated into glutathione

Highly soluble

Contains all natural ingredients

Naturally flavoured and sweetened

Strictly Practitioner Only

Each 1g of NAC contains:

N-Acetyl-Cysteine 1000mg

Each 1g of NAC Lemon Lime contains:

N-Acetyl-Cysteine 956.5mg
Natural lemon lime flavour and thaumatin blend 43.5mg

Each 1g NAC Berry contains:

N-Acetyl-Cysteine 942mg
Superfood blend of: 58mg
Powdered beetroot (*Beta vulgaris*) root, strawberry (*Fragaria chiloensis*) fruit juice, pomegranate (*Punica granatum*) fruit juice, acai (*Euterpe oleracea*) fruit juice, maquiberry (*Aristotelia chilensis*) fruit juice, mangosteen (*Garcinia mangostana*) fruit, raspberry (*Rubus idaeus*) fruit, goji (*Lycium barbarum*) fruit juice, natural strawberry flavour and thaumatin

Each 1g of NAC Apple Cinnamon contains:

N-Acetyl-Cysteine 930.6mg
Certified organic cinnamon (*Cinnamomum cassia*) powder, natural apple flavour and thaumatin blend 69.4mg

BioMedica's N-Acetyl-Cysteine

QUALITY PROCESSING

- BioMedica's N-Acetyl-Cysteine (NAC) complies and adheres to the strict standards of the British Pharmacopoeia, recognised as a global benchmark for medicinal and pharmaceutical standards • Our NAC undergoes triple purification to ensure a high quality end product • Made in Australia

SOLUBILITY

- A high quality raw material combined with superior processing, ensures high solubility for ease of administration and improved patient compliance

PURITY

- BioMedica's NAC is tested for heavy metals and impurities with results that comply with the strict parameters outlined in the British Pharmacopoeia

PROVEN STABILITY

- With proven independent stability data, BioMedica continues to monitor and ensure the stability of our NAC throughout the entire shelf life

NATURALLY FLAVOURED

BioMedica's flavoured NAC products contain natural flavours carefully selected to enhance palatability and improve patient compliance. Our wider range of flavour options provides greater flexibility when compounding.

- **Natural Apple and Cinnamon:** combines certified organic cinnamon (*Cinnamomum cassia*) powder with natural apple flavour
 - **Natural Lemon Lime:** combines natural lemon and lime flavours, providing a pleasant citrus taste
 - **Natural Berry Complex:** contains a blend of sustainably sourced superfood extracts and berry flavours

NATURALLY SWEETENED

- Sweetened with thaumatin; a naturally sweet protein extracted from *Thaumatococcus daniellii*; a fruit native to the west coast of Africa • Made in Australia using innovative, solvent free processes to ensure the thaumatin produced is highly stable under various environmental conditions
