

FAQs

PERFECTLY  PRINTED
parties

If you're like us, you like to know the details before you buy something. To help you get prepared, we've listed some of the questions we're frequently asked. Also, make sure to check out our [blog](#) about printables and all of the things you can do with them!

WHAT SUPPLIES WILL I NEED FOR YOUR PRINTABLES?

Scissors, hot glue, glue stick, ribbon, toothpicks, small hole punch, circle craft punches, white printer paper, white cardstock and sticker adhesive paper.

HOW DO I OPEN YOUR FILES?

You will first need to open the zipped file. On a Mac, just double click it and your computer will unzip it for you. On a PC, open the zipped folder, then drag the file or folder from the zipped folder to a new location. Once you have the file unzipped, you'll use Adobe Reader to open the pdfs.

CAN I DOWNLOAD THE FILES ON MY PHONE OR TABLET?

Please download all files to your desktop or laptop computer. Due to the large file sizes and zipped folders, they typically won't download to your phone or tablet.

WHAT TYPE OF PAPER DO I NEED FOR PRINTING?

We recommend either regular white printer paper and/or white cardstock, depending on what you are printing. All of our printables should be printed on 8.5 inch x 11 inch paper.

WHAT IS THAT BLUE BOX I SEE ON THE EDITABLE PRINTABLES?

Be sure your printer is set to print borderless/marginless or full bleed at 8.5 inches x 11 inches. All of our printables must be printed with a no margin setting to allow the designs to print at the correct size.

ON WHAT PAPER SHOULD I PRINT THE STICKERS?

We find Avery brand 2 inch adhesive sticker paper works the best. Print the stickers and then use scissors to cut out the designs. Peel off adhesive paper backing to attach. You can also use a 2 inch craft circle paper punch to cut a precise circle. We recommend [EK Success's EK Tools 2" Circle Punch](#).

IS THERE ANYTHING ELSE I NEED TO KNOW BEFORE PRINTING?

Be sure your printer is set to print borderless/marginless or full bleed at 8.5 inches x 11 inches. All of our printables must be printed with a no margin setting to allow the designs to print at the correct size.

WHAT IF I AM GOING TO TAKE MY FILES TO A PRINT SHOP TO BE PRINTED?

Be sure your printer is set to print borderless/marginless or full bleed at 8.5 inches x 11 inches. All of our printables must be printed with a no margin setting to allow the designs to print at the correct size.

WHAT ABOUT COLOR VARIATION?

When colors are printed they can vary depending on the type of computer you are using, as well as printer ink and paper. Printers may also print in various colors. Perfectly Printed Parties is not responsible for any color variation. Since there are so many factors involved in printing your items, there will be absolutely no refunds nor revisions of color or design.

WHAT ITEMS ARE IN OUR PRINTABLE COLLECTION?

On the following pages you will find a list of all items included in our printable collections, along with instructions for each item.

BANNERS

Cut each banner piece out with scissors. Punch the top corners of each piece with a small hole punch and string a ribbon through to hang. Be sure to leave lots of ribbon at each side of the banner for hanging. You may also tie ribbon or tulle pieces in between each banner piece to further embellish your banner.

CUPCAKE TOPPERS

Print on 8.5 x 11 inch white cardstock for cupcake toppers, 8.5 x 11 inch sticker paper for stickers (Avery brand 2 inch round sticker paper recommended) or 8.5 x 11 inch white printer paper to make your own party item.

CUPCAKE WRAPPERS

Print on white 8.5 x 11 inch cardstock and use scissors to cut the cupcake wrapper. Use a blade or exacto knife to make the opening needed to close the wrapper. No glue needed. Please keep in mind all cupcakes vary in size so if the wrapper is too wide, simply cut the end with the rectangle opening shorter and make another mark to close.

NAPKIN RING (CUSTOMIZED)

There is a single text box for customization for a number, age or Initial. Cut out each wrap out with scissors and wrap around a napkin filled with utensils. Use a glue stick to secure.

CUPCAKE TOPPERS (CUSTOMIZED)

This topper has a multi-line text bar for customization. Cut circle out with scissors, or we highly recommend using a 2 inch circle punch for precise cutting. For cupcakes, use a glue stick or hot glue to glue topper onto a toothpick. Insert into your perfect cupcake!

UTENSIL HOLDER

You can use regular white printer paper, just make sure not to get it wet or to use ice. A very waterproof paper is highly recommended.

FAVOR TAGS

Print on 8.5 x 11 inch white cardstock and cut out using scissors. Use a small hole punch to make a hole on the top of the tag where the white circle is. Add a string or ribbon to make it extra special.

FAVOR TAGS (CUSTOMIZED)

Print on 8.5 x 11 inch white cardstock and cut out using scissors. Use a small hole punch to make a hole on the top of the tag where the white circle is. Add a string or ribbon to make it extra special. There is one multi-line text box to write a special message or thank you to your guests. Have fun customizing!

FOOD TENT/PLACE CARD

Print on white cardstock and use scissors or a paper cutter for a more precise cut. Fold the card inside out so your hands are touching the white backside of the cardstock. After making a fold in the middle down the white line, flip it so the colored side is up and stands like a tent. There is one text box for customizing with a food item or guest name.

GIFT BOX

Print on white 8.5 x 11 inch cardstock. Cut out the box bottom with scissors. See the attached direction sheet that explains and shows where to fold and glue. We highly recommend that you use hot glue and clean hands when folding the seams.

GOODIE BAG TOPPERS

Print on white cardstock and use scissors or a paper cutter for a more precise cut. Fold the card inside out so your hands are touching the white backside of the cardstock. After making a fold in the middle down the white line, flip it so the colored side is up and is folded in half. Fill a clear plastic treat bag that is 4 inches wide with any goodie. Staple the bag shut. Take your goodie topper and hot glue the topper onto the top of the bag. If you don't have hot glue you can simply staple the topper onto the bag. Examples: Happy Birthday! Thanks for celebrating my special day with me!

UTENSIL HOLDER

Print on white 8.5 x 11 inch cardstock. Simply cut out the shape then fold both side panels backward.

FOOD FLAGS

Print on regular 8.5 x 11 inch printer paper. Cut with scissors and apply to toothpick with a glue stick or hot glue.

NAPKIN OR BUBBLE BOTTLE WRAPS

Print on regular 8.5 x 11 inch white printer paper. Cut to the desired size with scissors or a paper cutter for a more precise cut. Wrap the ring around a folded napkin filled with utensils and glue the end together to close the ring. Or you may use many of the napkin wrap designs as bubble wraps for quick and easy party favors.

PARTY FLAGS

Print on regular printer paper and cut out using scissors. Apply a glue stick to the entire back of the flag on the white side. Fold in half and connect the sides to fit evenly against each other. Possible uses: straws, cake pops, cupcake sticks, lollipops, toothpicks.

PARTY CUTOUT

Print on white 8.5 x 11 inch cardstock and cut out with scissors. Use these cute cutouts to make a centerpiece, use as decoration, signs, banners or anything to bring that special touch to your party!

SIGNS

Print on 8.5 x 11 inch regular white printer paper or white cardstock. Cut with scissors or a paper cutter. This sign has a multi-line customization box to give it that special touch. Display in a picture frame or glue onto an 8.5 x 11 inch colored cardstock sheet and using a small hole punch. Make 2 holes in the top corners to hang with a ribbon or string.
