

alchemy collection: pillows

If there was a collection where Aviva shows off her textile magic, it would be the Alchemy Collection. A series of exotic textiles surfaces, a result of an extended study and years of refinement. We hand fuse the finest of merino wools, vintage laces and trims, with silk chiffon, cotton gauzes, and organzas. The end result is an extraordinary: a brand new textile. This collection is a fusion of both ancient and modern, and is permanently collected by the Brooklyn Museum's Decorative Arts Collection.
