outdoor collection

Indoor and Outdoor - the lines start to fade... We love that! This collection is Solution Dyed Acrylic Indoor/Outdoor Performance Velvet. Not only does it have guaranteed durability, but it is also Crush-Resistant, and Colorfastness to Light. In case that wasn't enough, we had it certified to meet and exceed 2,200 hours of light fastness and is treated with an enhanced stain and soil repellent and exceed 100,000 double rubs! By the way, we press real objects into it, and it's woven in the USA. Yes, we are very proud!
