

Instructions to install firmware update for Sport HD II camera, model SP1 N with serial numbers beginning with 24

Warning: Do not install this firmware update to Sport HD camera, model SP1 with serial numbers beginning with 02, 03, 04, 05, 06, 07 and 08

1. Download firmware update file to desktop. Do not try to “open” firmware update file.
2. Transfer firmware update file to a blank Micro SD card.
3. Insert card into camera’s Micro SD card slot: ***camera must be off.***
4. Turn camera on; file will install automatically (LCD will show a rotating circle of dots and then camera will turn off).
5. After installation, remove firmware update file from Micro SD card.
