

## Instructions to install firmware update for Sport HD camera, model SP1 with serial numbers beginning with 02, 03, 04, 05, 06, 07 and 08

**Warning: Do not install this firmware update to Sport HD II camera, model SP1 N with serial numbers beginning with 24.**

1. Download firmware update file to desktop. Do not try to “open” firmware update file.
2. Transfer firmware update file to a blank Micro SD card.
3. Insert card into camera’s Micro SD card slot: ***camera must be off.***
4. Turn camera on; file will install automatically (LCD will show a rotating circle of dots and then camera will turn off).
5. After installation, remove firmware update file from Micro SD card.
