

## LARUE Sconce

The Larue Sconce is evocative of a bygone era of opulence translated into a reductive form in engineered polymer. The overall form adds a touch of sophistication, while the intricate details create a mesmerizing centerpiece.

Its pointed face is striking yet its curved edges are inviting and reminiscent of the gentle swaying of palm trees in the warm breeze. Art deco style is infused with a vibrant island beach spirit to transport you to a shimmering dream of unforgettable memories and passion.

Larue is perfect besides a vanity mirror, in a personal office, or fitting for a stylish living room to entertain guests. The sconce is completed with a round backplate available in Brushed Bronze for a more antique feel or in Satin Nickel for that touch of chic elegance.
