

MEILL Flush Mount

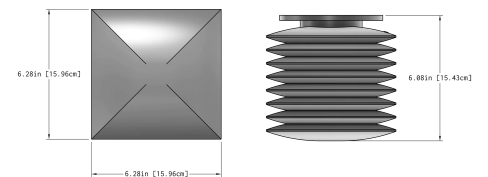

The Meill Collection draws from the allure of high rise buildings. Ciel finds its form through the architectural elements of louvers, which allow for the ventilation of air to flow in and out. The word Ciel directly translates to 'Sky', alluding to this idea of lightness, air, and infinity. Repetitive lines and form create a sharp precision which pushes the bounds of our manufacturing techniques. The texture of the engineered polymer give it a paper-like feel reminiscent of traditional handmade paper. With its elongated shape and soft glow Ciel creates a sense of calmness and tranquility.
