

GREEK AND ROMAN MYTHOLOGY COURSE OUTLINE (1 SEMESTER)

Introduction: Have you always wanted to teach a top-notch Greek and Roman mythology course but didn't know where to start? This day-by-day outline will show you *exactly* how I run my own semester-long Greco-Roman mythology course, which includes units on the Greek gods, Greek heroes, the Trojan War and the *Odyssey*, and the Roman *Aeneid*. All the materials on this outline are either available as free downloads on my website CreativeEnglishTeacher.com or as sale items in the website store. If you would like to buy all of the materials at once, the [Olympus Bundle](#), combines them into a single purchase.

Scope and Sequence: The course consists of 90 planned days of instruction. Numbers appearing to the left of assignment titles indicate the days of instruction.

Resources: A full list of resources used in this outline appears at the end of the document. The script-stories listed here come from volumes of the *Reaching Olympus* series while other selections are from *The Hero's Guidebook*. All of the necessary resources can be purchased in the **Olympus Bundle** available in our website store:

Using Script-Stories in the Classroom: Each volume within the *Reaching Olympus* series contains an introduction outlining practices for using script-stories in the classroom.

- **Anticipatory Set:** Each script-story includes a series of anticipatory questions to get students engaged in the content of the story.
- **Assessment:** Each script-story contains five recall questions that can be used as a post-script-story quiz.
- **Quizzes and Exams:** Several other quizzes and exams appear on the course outline, and these are also available for sale on the website or as part of the World Myth Bundle.
