

1863 Eastman Ave. Ventura, Ca. 93003 www.arp-bolts.com

**Part Number: 147-2802** 

Application: DODGE/CUMMINS 5.9L DIESEL

## Flywheel Bolt with Washer-Installation

- [1] Please check the part-number(s) for your application against the part-number(s) listed on the instruction sheet.
- [2] Position the chamfered side of the washer on the bolt so it faces the bolt head. This is done to clear the radius on the under head of the bolt. Note: Improper installation of the washer will cause premature bolt failure.
- [3] Lubricate the threads of the bolt with LOCTITE 242 and the under head of the bolt with ARP ULTRA-TORQUE FASTENER ASSEMBLY LUBRICANT.
- [4] Install the flywheel onto the crankshaft and tighten the bolts hand tight.
- [5] Using an alternating or criss cross pattern, torque the bolts to 120 ft lbs using the specified lubricants in Step 3.
