

PRODUCT FITMENT NOTIFICATION

Aug. 14, 2014

Dynatrac Free Spin Hub Conversion Kit - 2012-2016 Dodge Ram 2500/3500 4x4

CR60-3X1104-K

CR60-3X1104-L

The new Dynatrac Dodge Ram 2500/3500 4x4 Free Spin Hub Conversion Kit will fit all 2012 to 2016 RAM 2500/3500 4x4 vehicles. However, due to changes to the wheels, most 2014-2016 Dodge OE wheels will not fit. The issue is the wheels are closed and do not have a removable center cap which is required to allow the hub snout to pass through.

The customer must have a wheel with a center-hole or removable center cap. Dynatrac does not recommend modifying any part of the wheel. This will decrease the strength of the wheel and can lead to catastrophic failure. Most aftermarket wheels will have a removable center cap, but the customer must confirm before ordering. Dynatrac has confirmed the fitment of the following wheels:

- RAM Power wagon
- 2010-2012 Factory RAM wheels
- AEV RAM wheels
- BMF RAM wheels
