HOW TO CHOOSE YOUR SIZE

When choosing your ring size, the ring needs to go on with ease and come off with a bit of difficulty. If you do not have a ring that you can size your finger with, use the ring sizer cutout to find your size.

HOW TO MEASURE YOUR RING SIZE

1. Find a ring (preferably a 'band' type) that fits you perfectly.
 2. Print out this sheet, making sure you print it 'actual size'. Check that the measurement scale is correct.
 3. Place your ring over the circles to find a size that matches.
- If your ring falls between sizes, choose the smaller size for a thin ring or the larger size for a thicker ring.

If you are unsure, contact us and we will be happy to help you.

RING SIZER CUTOUT

1. Wrap the cut out ring sizer around your finger.
2. Insert **A** through **B** to find the perfect fit.
(This must not be too tight or too loose i.e. This must be a comfortable fit)
