

Pink's Inks will print on customer supplied property **at the customers risk**. Customer supplied property is not subject to credit or replacement by Pink's Inks. During the process there is approximately a 5% misprint rate. We **highly** suggest supplying an extra 5% if you need an exact amount.

Pink's Inks will credit you for the printing if we have misprints and **not the garments you supply**. _____ (initial)

Pink's Inks will not reprint an order for misprints unless it meets the minimum piece requirement for that process.

Customer supplied property must be sorted **prior to being delivered to Pink's Inks**. Please have your order sorted and labeled with your size/color breakdowns.

All garments must be removed from poly bags prior to delivery to Pink's Inks. If they are not removed from poly bags, there will be a \$10.00 fee per 50 garments for us to remove them.

Once customer property is received by Pink's Inks, it will be counted in and any discrepancies will be reported before we go to print.

Pink's Inks is not responsible for any manufacturer defects in the products, such as: holes, ripped seams, mislabeled garments, etc. We try our best to inspect garments before they are printed. Your garment supplier will not credit you for items that are already printed on, so we suggest you check them yourself before delivering them to Pink's Inks. _____ (initial)

Payment for your order must be made in full before printing will begin.
