

HALLOWEEN GARLAND

GHOST AND BAT

RECOMMENDED TOOLS:

1. Paper in the color of your choice (ideally cardstock)
2. Pencil or marker
3. Stapler (if creating longer garlands)
4. Excel Blades cutting mat
5. Excel Blades K2, K5 or K6 knife handle
6. Excel Blades #2 blade

INSTRUCTIONS:

1. Cut a piece of heavyweight paper in half - one side will be used for the bat, the other for the skull.
2. Fold the paper in half. Fold in half again, then once more. This makes a total of 3 folds.
3. Unfold the paper, then refold accordian style along the creases you've created.
4. Turn your accordian folded paper so that the folded edge is on the left and the right side opens like a book.
5. Cut out the included templates so that you have a stencil, then trace them onto the folded paper. Make sure that one edge of the tracing touches the right side of the accordian paper - this ensures that the chain connects.
6. Cut around the tracing and unfold to reveal your garland! Repeat the entire process and attach together to create a longer garland.
