

BRING HOME THE BEACH

SALACIA SALTS BLENDING BAR

WITH SOUTHERN BOTANICALS

Allow your customers to take home the beach by making their own skin care products. Our Blending Bar kits allow customers to customize their own products with sea salts, essential oils and natural botanicals.

We make it easy for you to provide this relaxing and fun activity to your customers with signage, step-by-step instruction worksheets, as well as benefits of the ingredients in our kits.

We love our oceans and rivers, and use eco-friendly, sustainable packaging in our kits so you can feel good about providing this activity for your customers, too!
