CHAPTER 1
Background and Implementation of the National Environmental Policy Act

Introduction and Overview of the Law 1
Purposes and Objectives of NEPA 1
Application of NEPA 2
The Need for NEPA 3
Environmental Policies 4
Interdisciplinary and Integrated Framework for Environmental Protection 5
Interdisciplinary evaluation • Integrated approach
Action-Forcing Procedures 6
Procedural vs. Substantive Effect 7
Federal Agency Discretion in NEPA Implementation 8

Participants in the NEPA Process 10
General 10
Council on Environmental Quality 11
General responsibilities • Specific NEPA responsibilities •
The politics of CEO’s NEPA oversight • CEO’s NEPA regulations • CEQ annual Environmental Quality Reports • NEPAnet internet website
U.S. Environmental Protection Agency 15
General responsibilities • Filing and noticing role •
Reviewing role • Cooperating agency role

NEPA Implementation by Federal Agencies 16
Application to Federal Agencies 16
Federal Agency Authority Over Proposed Actions 17
Federal Agency NEPA Staff 17
Federal Agency NEPA Procedures 17
Preparation of procedures • Contents • Time limits •
Other federal agency guidance • Differences among federal agencies’ NEPA procedures

Lead and Cooperating Agency Roles 19
Lead agency • Cooperating Agencies
Importance of Public Participation 21
Opportunities for Public Involvement 21
Citizens and interest groups as the enforcers of NEPA •
Obtaining agency information and the Freedom of Information Act (FOIA) • Reviewing NEPA documents •
Exhausting administrative remedies

Overview of the Steps in the NEPA Process 23

CHAPTER 2
Deciding If NEPA Applies

Summary of NEPA’s Three-Phase Process 25
Phase 1. Screening for NEPA’s Applicability 25
Phase 2. Preparation of an Environmental Assessment 26
Phase 3. Preparing the EIS or FONSI 26

Determining Whether NEPA Applies to a Proposed Action 26
When to Commence NEPA Review 26
Elements of NEPA Section 102(2)(C) 28
When Does a “Proposal” Exist? 28
Legislation 29
Major Federal Actions 29
Types of actions subject to NEPA • Ministerial vs.
discretionary actions • Condemnation and other acquisition of land • Inaction or no action •
Connected actions • When Is an action federal? •
Other types of actions not subject to NEPA

Additional Terms Important to NEPA Analysis 34
“Significantly” 34
"Affecting the quality of the human environment" 34
CHAPTER 3

Environmental Assessments and Findings of No Significant Impact

The Threshold Decision ........................................... 43
When Is an EIS Required? ........................................ 43
When Is an EIS Not Necessary? ................................. 43

Environmental Assessments ........................................ 44
Definition and Purposes ......................................... 44
Requirement to Prepare an EA ................................. 44
Who May Prepare an EA? ....................................... 44
Principles Governing EA Preparation ......................... 45
Use of EIS principles • Importance of agency NEPA procedures and guidance
Format and Content .................................................. 45
Need for the proposed action • The proposed action and alternatives • Probable environmental impacts of the proposed action and alternatives • Agencies and persons consulted
Length and Level of Detail ........................................ 47
Scoping in EA Preparation ........................................ 48
Agency and Public Involvement ................................ 48
Public Notice of Availability .................................... 48

When Does a Proposed Action Significantly Affect the Quality of the Human Environment? ................................. 48
The Meaning of the Term “Significantly” ...................... 48
Context • Intensity • Relationship between context and intensity • Thresholds of significance—a useful tool

CHAPTER 4

Preparation and Review of an Environmental Impact Statement

Introduction ......................................................... 61

Purposes of an EIS ................................................... 61
The EIS as an Action-Forcing Mechanism ...................... 61
The EIS as an Information Disclosure Device ................ 62
The EIS as a Problem-Solving Tool ............................. 62
The EIS as a Consensus-Building Opportunity ................. 62
The EIS as an Information Source for State, Local, and Tribal Communities ......................... 63

Types of EISs ....................................................... 63
General ............................................................... 63
Project-Specific EIS ............................................... 63
Programmatic EIS .................................................. 63
Definition • Scope, content, and focus of a programmatic EIS • Programmatic EIS distinguished from project-specific EIS • Use in tiering
Legislative EIS ....................................................... 65

Who May Prepare an EIS? ........................................ 65
NEPA Requirements .............................................. 65

Preparation by Contractors ....................................... 65
Use of contractors in NEPA practice • Guidance to contractors • Conflicts of interest disclosure statement • Special rule for federal highway projects • Information submitted by applicants
Adoption of Another Federal Agency’s EIS ..................... 67
Contents

Preparation by State Transportation Agencies .......................... 67
Preparation by Applicants to U.S. Department of Housing and Urban Development .................. 67

Timing of EIS Preparation ............................................. 68
Timing for Specific Actions ........................................... 68
    Direct federal agency actions • Private or nonfederal agency applications • Formal adjudications • Rule making • Staged actions
Duration of EIS Preparation ........................................... 69

Public Involvement ..................................................... 70
General ................................................................. 70
Notice to the Public .................................................... 70
Actions with Effects of National Concern ......................... 70
Actions with Effects of Primarily Local Concern ............... 70
Availability of Information Under the Freedom of Information Act ....................................... 71

Steps in the EIS Preparation Process ................................. 71
Determine the Lead Agency ........................................... 71
Prepare an Environmental Assessment ......................... 71
Publish Notice of Intent ............................................... 72
Conduct the Scoping Process ......................................... 72
    Objectives • Timing of scoping • General issues relating to the scope of an EIS • Determining requirements of other environmental laws • CEQ’s informal scoping guidance
Prepare the Draft EIS ................................................. 75
Circulate and Receive Comment on the Draft EIS .......... 75
    Involving the Public • Availability of information under the Freedom of Information Act • Key issues for reviewers • Participating effectively in the NEPA process • Consultation and coordination with other agencies • Process for circulation
File the Draft EIS with EPA .......................................... 80
    Authority for filing • Weekly Federal Register notices • EPA website listing
EPA Review of EISs ................................................... 80
    Authority to review NEPA documents • EPA’s review handbook and policies • Document rating system • Review of Final EIS • Review of EAs and categorical exclusions
Hold a Public Hearing When Appropriate ..................... 82
Prepare the Final EIS ................................................. 82
Circulate the Final EIS ................................................ 82
File the Final EIS with EPA ......................................... 82
Adopt the Final EIS ................................................... 82
    Adoption by the lead agency • Adoption by a cooperating agency
Federal Agency Makes Decision on the Proposed Action .......... 83
Prepare the Record of Decision .................................... 83

Supplement to the EIS ................................................ 84
Requirement ......................................................... 84
Supplemental EIS Process ........................................... 85

Trends in EIS Preparation ........................................... 85

CHAPTER 5
Content and Scope of an EIS

Contents of a Draft EIS ................................................ 87
    Introductory Sections of an EIS .................................. 88
        Cover sheet • Summary • Table of contents • Statement of purpose and need
    The Proposed Action ............................................... 90
        General • Connected actions
    Alternatives ...................................................... 91
        General • Range of alternatives to be evaluated • Level of analysis of alternatives • Alternatives considered but eliminated from detailed study
    Affected Environment ........................................... 98
        General • Determining the baseline for impact evaluation • Baseline distinguished from no-action alternative
    Environmental Consequences ................................. 100
        General
    Environmental Impact Assessment Methodology .......... 100
        General • Quantitative vs. qualitative analysis • CEQ and EPA Guidance • Individual federal agency guidance • Other guidance • Definition of “human environment” • Direct effects • Indirect effects • Cumulative effects • Conflicts with land use management plans • Beneficial effects • Specific environmental resources to consider in an EIS • Effects on the natural environment • Effects on the built environment • Effects related to human health • Effects related to environmental sustainability • Environmental effects and proposed actions outside the United States • Nonphysical effects • Determining the significance of the environmental consequences

Mitigation Measures .................................................. 117
    NEPA requirement • Definition of adequate mitigation • Feasibility of mitigation measures • Specificity of mitigation measures • Mitigation adequacy • Mitigation Monitoring Programs

Adverse Environmental Effects
That Cannot Be Avoided ............................................. 118

Concluding Sections of the Draft EIS ......................... 119
    List of preparers • List of agencies and organizations • Appendices • Index

6 The NEPA Book
CHAPTER 6
Integrating NEPA with Other Environmental Laws

Concept of Integration ........................................... 127
Environmental Review and Consultation Requirements ............................... 127
The Theory Behind Integration .................................................................. 127

Model Approach to Integrating NEPA with Other Laws ............................ 128
Overview ....................................................................... 128
Step 1. Conduct a preliminary constraint analysis •
Step 2. Consult with regulatory agencies • Step 3. Prepare a Comprehensive Environmental Compliance Strategy •
Step 4. Draft and sign any necessary memoranda of understanding • Step 5. Conduct required reviews and technical studies • Step 6. Consolidate results of completed technical studies into the draft NEPA document • Step 7. Conduct coordinated public and interagency review • Step 8. Incorporate the results of any additional technical studies into the final NEPA document • Step 9. Adopt the consolidated NEPA document • Step 10. Ensure that individual agencies use the NEPA document in their regulatory decisions

Common Problems That Can Cause Integration to Fail .............................. 134
General • Lack of a Comprehensive Environmental Compliance Strategy • Ignorance of requirements • Inadequate consultation • Timing conflicts • Staffing issues • Non-cooperation

Integrating NEPA with State Environmental Impact Assessment Laws .......... 135
Summary of State “Little NEPAs” ................................................. 135
Similarities Between NEPA and State EIA Laws ................................... 136
Integration with State EIA Requirements ........................................... 137
Requirement to integrate • Determining whether a state EIA law applies • Preparing joint federal-state environmental documents
Integration with State and Local Land Use Planning Requirements ............ 139

Integrating NEPA with Other Federal Environmental Laws, Regulations, and Executive Orders ................................................................. 139
Federal Endangered Species Act ................................................................ 139
General • Section 7 Process • Section 10 Process
Section 404 of the Clean Water Act/Section 10 of the Rivers and Harbors Act ........................................ 143
General • Actions considered “discharge activities” or “affecting navigable waters” • General permits • Standard or individual permits
Section 106 of the National Historic Preservation Act ................................ 144
General • Consultation
Clean Air Act: Conformity Requirements ................................................ 146
Federal Hazardous Materials Laws ...................................................... 146
Other Federal Laws and Regulations ..................................................... 147
Compliance with Specific Executive Orders .......................................... 147
Wetlands Executive Order • Floodplain Management Executive Order • Environmental Justice Executive Order

Evaluating Environmental Justice Under NEPA ......................................... 147
General ........................................................................... 147
Executive Order 12898 .................................................................... 148
Presidential Memorandum Accompanying the Executive Order ............... 148
CEQ Guidance for Addressing Environmental Justice Under NEPA .......... 149
Agency Programs to Implement Executive Order 12898 ......................... 149

Integrating NEPA with Federal Land Use Planning .................................... 150
Legal Framework for Federal Land Use Planning .................................... 150
Applicability of NEPA to Federal Land Use Plans ................................ 151
Differences Between Plan-Level and Project-Level EISs ......................... 151
“Tiering”—Using Plan-Level EISs in Evaluating Subsequent Activities .......... 151

Integrating NEPA with Pollution Prevention .............................................. 153
### Chapter 7: NEPA and the Information Revolution

#### Availability of Electronic Information
- NEPA and the Internet .............................................. 155
- Electronic Freedom of Information Act ......................... 155

#### NEPA Information Available On-Line
- Council on Environmental Quality’s “NEPAnet” .................. 156
- Environmental Protection Agency—Office of Federal Activities 156

#### Other Federal Agency NEPA Websites
- Typical Information Found on Agency NEPA Websites ............... 157
  - U.S. Department of Energy • U.S. Forest Service • General Services Administration NEPA Call-In Program • On-Line NEPA Documents

#### Professional Organization NEPA Websites
- National Association of Environmental Professionals .......... 159
- International Association for Impact Assessment .................. 159

#### Information Technology and the Future of NEPA
- Supporting Information Linking and Integration .................. 159
- Visualization ................................................................... 160
- Monitoring .................................................................... 160

### Chapter 8: NEPA and Federal Agency Decision Making

#### NEPA’s Role in Agency Decision Making
- Promote Consideration of Environmental Consequences .......... 163
- Substantive Effect of NEPA ........................................... 163
- Limitation on Alternatives That May Be Selected .................. 164
- Agency Decision-Making Procedures ................................... 164

#### Limitations on Taking Action During the NEPA Process
- Time Limits on Agency Decision Making ............................ 164
- Limitations on Agency Actions ........................................ 164
- Limitations on Applicant Actions ...................................... 164
- Interim Actions .................................................................. 164
- Applicability to State and Local Agencies ............................ 165

### Chapter 9: Judicial Review Under NEPA

#### Importance of the Courts in NEPA Enforcement
- General ........................................................................ 171
- Judicial Development of NEPA ........................................ 172
- Plaintiffs and Defendants in NEPA Litigation ....................... 173
- Defendants in NEPA Litigation ....................................... 173

#### Overview of the NEPA Litigation Process
- General ........................................................................ 175
- Relationship to the Administrative Procedures Act ................ 175
- Jurisdictional Issues in NEPA Cases .................................. 175
  - Venue • Standing • Exhaustion of administrative remedies • Ripeness • Mootness • Laches

#### Importance of the Administrative Record
- General • Injunction ...................................................... 178

#### Remedies
- General • Injunction ...................................................... 178

#### Standards of Judicial Review
- General ........................................................................ 179
- Arbitrary and Capricious Standard of Review ....................... 179
- The “Hard Look” Doctrine ............................................. 180
- Rule of Reason ............................................................. 180
- Substantive Judicial Review ............................................ 180

### Chapter 10: The Globalization of NEPA

#### NEPA as a Precedent for the World
- European Union ......................................................... 183
- World Bank ................................................................. 185

### Short Articles

- The Congressional Development of NEPA
- Ian McHarg and the Concept of Interdisciplinary Ecological Planning
- Tips for Effective Citizen Participation in the NEPA Process
- CEQ Authorized to Develop Alternative NEPA Arrangements for Emergencies
- Environmental Assessment: The True Heart of NEPA?
- NEPA Document Quick Review Worksheet
- The Importance of the Statement of Purpose and Need: From the Federal Highway Administration’s Environmental Guide
- Developing the Range of Alternatives to Include in an EIS
- Direct Effects, Indirect Effects, and Cumulative Effects: Is There Really Any Difference?
- CEQ Oversees Extraterritorial Application of Environmental Impact Assessment
- General Accounting Office Study Recommends Improved Procedures Needed for Environmental Assessments of U.S. Actions Abroad
- Executive Order Requires Special Environmental Assessments for International Trade Agreements
- Mitigation in Theory and Practice
- Improving Interagency Coordination: Federal Highway Administration Recommendations
- Paperwork or Protection? A Comparative Assessment of State Environmental Policy Acts
- Integrating NEPA, a State Mini-NEPA, and Section 404 Permitting in Washington State
