CHAPTER ONE

Government Agencies Involved in Transportation Planning and Programming / 1

Federal Agencies	1
United States Department of Transportation	1
Administrations Within the DOT	4
Federal Highway Administration • Federal Transit Administration • Federal Railroad Administration • National Highway Traffic Safety Administration • United States Coast Guard • Maritime Administration • Federal Aviation Administration • Surface Transportation Board • Bureau of Transportation Statistics • Research and Special Programs Administration • Office of Research, Technology, and Analysis • Office of University Research and Education • Volpe National Transportation Systems Center • Office of Research Policy and Technology Transfer • Office of Hazardous Materials Safety • Office of Emergency Transportation • Office of Pipeline Safety • Saint Lawrence Seaway Development Corporation	
U.S. Environmental Protection Agency	21
Office of Air and Radiation	
State Agencies	21
Business, Transportation and Housing Agency	21
California Department of Transportation	21
Department of Motor Vehicles	34
New Motor Vehicle Board	
California Highway Patrol	35
Office of Traffic Safety	35
Stephen P. Teale Data Center	35
California Transportation Commission	36
State Highway Operation and Protection Program • Prop. 116 Rail Program • Environmental Enhancement and Mitigation Program • Prop. 116 Bicycle, Ferry, and Rural Transit Programs • Toll Bridge Program • Aeronautics Program • California Aviation Systems Plan	

Program Guidelines	37
Allocating Funds	37
Other Project-Specific Responsibilities	37
Reports to Legislature and Governor	
Regarding Implementation	37
Advice to the Legislature and Governor	
Regarding Transportation Policy	37
California Environmental Protection Agency	38
California Air Resources Board	38
Overview of CARB mandates • Motor vehicle controls • Cleaner fuels • Toxic air contaminants • Air quality plans • Air quality monitoring • Emissions inventory and modeling • Research • Air quality standards • Enforcement • Air districts	
California Public Utilities Commission	40
Executive Division • Legal Division • Administrative Law Judges • Division of Strategic Planning • Energy Division • Rail Safety and Carriers Division • Consumer Services Division • Office of Ratepayer Advocates • Public Advisor's Office • Information and Management Services Division	
Resources Agency of California	42
Energy Resources Conservation and Development Commission • Department of Boating and Waterways • California Boating and Waterways Commission ("Cal Boating") • California Coastal Commission • California Coastal Conservancy	
California Maritime Academy	48
Board of Pilot Commissioners	48
Bureau of Automotive Repair	48
Off-Highway Motor Vehicle Recreation Commission	49
Metropolitan Planning Organizations	49
Other Regional Agencies	51
Tahoe Regional Planning Agency	51
Southern California Regional Rail Authority	52

Transportation Planning Agencies/ Local Transportation Commissions	53
Government Code Section 29532.1: TPAs in Northern California	53
Government Code Section 29532: TPAs in Other Areas of the State	54
Caution. In the SCAG Region, a TPA for Purposes of Regional Transportation Planning May Not Be the Only TPA for Other Purposes	55
County Transportation Commissions	55
Congestion Management Agencies	55
City and Local Transportation Agencies	56
Native American Tribal Governments	56

CHAPTER TWO

Statewide Transportation Planning / 57

Federal Requirements.	57
General	57
Overview of the Statewide Planning Process	57
Coordination with the Metropolitan Planning Process and the State Implementation (Air Quality) Plan	57
Scope of the Statewide Planning Process: Factors to Be Considered	57
Factors not subject to judicial review • Additional TEA-21 factors to be considered • Federal regulations • Further requirements relating to coordination and outreach • Federal regulations mandating public involvement	
Funding Available for Statewide Transportation Plan and Improvement Program	63
Treatment of State Laws as Congestion Management Systems	64
Statewide Transportation Plan Not Subject to NEPA Review	64
Study Regarding Effectiveness of Participation of Local Elected Officials in Planning and Programming	64
The Statewide Transportation Plan: Purpose and Content	64
Cooperation and Involvement of Interested Parties	64
In metropolitan areas • In areas under Indian tribal jurisdiction • In all areas	
Substance and Content Requirements and Other Provisions	65
Statewide planning regulations • Financial plan and illustrative list (optional)	
Other Procedural Requirements	66
Establishment of Statewide Transportation Plan	66
Continual Evaluation and Update	66

State Requirements for the California Transportation Plan.	66
General Provisions.	66
Statewide Transportation Planning Must Be an Integrated Process	66
The Sad History of the California Transportation Plan	66
Transportation Blueprint for the 21st Century: A More Successful Model for Statewide, Long-Range Transportation Planning	67
Elements of the California Transportation Plan	67
Policy Element	67
Goals of the Plan	67
Role of the State in Transportation	68
State Policies Regarding Congestion Management	69
The problem • General state policies for congestion management	
Strategies Element	69
The California Transportation Plan Is Not Meant to Be Project-Specific	69
Recommendations Element	70
Adoption of the Plan by the Governor	70

CHAPTER THREE

Regional Transportation Planning / 71

Introduction.	71
Federal Requirements.	71
TEA-21, ISTEA, and the Federal Transit Act: The Metropolitan Transportation Planning and Programming Process	71
Overview	71
Designation and Redesignation of the Metropolitan Planning Organization	73
Procedure for designation • Structure of MPO board • Limits on construction of authority • Continuing designation of MPOs • Redesignation • Designation of more than one MPO	
Metropolitan Planning Area Boundaries	75
Generally • Included area • Existing metropolitan planning areas in air quality nonattainment • New metropolitan planning areas in air quality nonattainment	
Transportation Management Areas	75
Designation • Transportation plans and programs in a TMA • Congestion management systems • Selection of projects • Certification of planning process in TMAs	
Coordination in Multistate Areas	85
Interstate compacts • Interagency consultation • In the Lake Tahoe region	
Recipients of Other Assistance	86
Coordination of MPOs	86
In nonattainment areas • Project located in multiple MPOs	
Scope of the Planning Process: Planning Process Factors in TEA-21	86

The Long-Range Transportation Plan: Development and Content Requirements in TEA-21	88
Some process requirements	
Abbreviated Plans and Programs for Certain Areas	89
Transfer of Funds	89
Additional Requirements for Certain Nonattainment Areas.	89
Limits on Statutory Construction	90
Funding	90
Provisions found in 23 U.S.C. section 134 •	
Some provisions found in 49 U.S.C. section 5303	
Participation of Private Enterprise in the Planning Process	91
Better Use of Equipment	91
Metropolitan Planning Process Not Subject to NEPA Review	91
Metropolitan Planning Requirements in the Code of Federal Regulations	92
Purpose of the Regulations	92
Applicability.	92
MPO Designation	92
Designation must clearly identify policy body •	
Prior establishment of MPO preferred • Redesignation of MPO • MPOs may use staff resources from other agencies • Continuing designation •	
Requirements for redesignation in multistate area • Requirements for redesignation of MPO covering more than one urbanized area • Composition of MPO's voting membership	
Metropolitan Planning Area Boundaries	94
Where an air quality nonattainment or maintenance area extends beyond the boundaries of the metropolitan planning area • Establishment of metropolitan planning areas for new urbanized areas • Approval of metropolitan planning area boundaries	
Agreements Between the MPO and Other Agencies	95
Between MPO and state • Between MPO and public transit operators • Agreement between MPO and designated air quality agency • Above agreements should, if possible, be consolidated • Alternate forms for agreements • Where metropolitan planning area does not include all of an air quality nonattainment or maintenance area • Agreement where multiple MPOs serve a metropolitan planning area, nonattainment area, or maintenance area	
Responsibilities, Cooperation, and Coordination in the Metropolitan Transportation Planning Process	96
Approval of plan and TIP • Coordination of transportation plan development with SIP development • MPO cannot approve any plan or program not in conformity with SIP • Where more than one MPO has authority in a metropolitan planning area • Designation of transportation management areas • Cooperative development of management systems • Involvement of state in development of plans • Involvement of Indian tribes and related federal agencies	
Development of the Unified Planning Work Program	98
Combining work programs • Prospectus •	
Simplified work statements in non-TMAs	

Elements of the Metropolitan Transportation Planning Process	98
Planning factors • Public involvement	
Major Metropolitan Transportation Investments and Studies	109
Relation of the Transportation Planning Process to Management Systems	109
Restrictions on federal funds • Development of CMSs in TMAs • CMS effectiveness must be periodically evaluated	
The Long-Range Transportation Plan	110
Specific content requirements • Opportunity for comment on plan • Air quality conformity determinations • Copies of plan must be sent to FHWA and FTA	
Certification of the Metropolitan Planning Process	112
Review by FHWA and FTA	
State Law Requirements: The Regional Transportation Plan	113
Generally.	114
Who Prepares the RTP?	114
Generally, it's the designated TPA • Redesignation of a TPA, once RTP preparation has begun, is difficult • Caltrans can prepare an RTP in areas where the TPA is a local transportation commission • In SCAG region: State law specifies that it is prepared by multicounty designated TPA (namely, the Southern California Association of Governments) • TPAs not choosing to prepare the initial RTP in their area still have a chance to prepare the updated ones	
Purposes of the RTP	115
The Regional Planning Process.	116
Public Involvement.	116
Coordination.	116
ISTEA requirements • The NEPA/404 memorandum of understanding • Coordination with air quality planning • Use of Caltrans system planning	
Planning Assumptions and Forecasts	117
Identify and articulate assumptions •	
Technical considerations	
Planning Analysis	118
Generally: Plan on a corridor, subregional, or regional scale	
Regional Transportation Plan Content	120
Content and Purpose	120
Elements of RTP	120
Executive Summary (optional) • Needs assessment (optional) • Policy element • Goals, policies, and objectives • Action element • Incorporation of congestion management programs • Trip reduction plan • Regional agency review of CMPs • Monitoring implementation of the CMP Deficiency plan • Financial element • Environmental documentation • Supplemental information	
Evaluation of RTP	141
Scope of Evaluation	141
Actions by Caltrans	142

Adoption and Submittal of the RTP to State Agencies 142

 Public Hearing Required Before Adoption 142

Site-Specific Statutes and Requirements. 142

 Regional Transportation Planning Process in the MTC Region 142

 Factors to be considered • Content of plan • Estimate of need and schedule of priorities • Adoption and continuous revision of RTP • Allocation of funds by the California Transportation Commission • MTC role as Bay Area Toll Authority

 Regional Transportation Planning Process in the SCAG Region 146

 Additional factors to be considered in planning process • SCAG must convene meetings of Caltrans, county transportation commissions to discuss RTP and other transportation issues • Commissions may work through SCAG to develop agreements regarding development of facilities, provision of services • Cooperative resolution of conflicts • Counties are responsible for short-range capital and service planning • Counties develop long-range expenditure plans • Counties develop short-range recommended TIPs and submit them to SCAG • County transportation commissions in SCAG region must recommend candidate projects for regional improvement funds (musn't they?)

CHAPTER FOUR

Federal and State Sources of Funding / 151

Introduction 151

Major Federal Sources of Funding 151

 Surface Transportation Program Funds 151

 National Highway System Funds 151

 Interstate Maintenance Program 152

 Highway Bridge Replacement and Rehabilitation Program 152

 Transportation Enhancements 152

 Mitigation and Air Quality Improvement Program 152

 Federal Lands Highways Program 152

 High Priority (Demonstration) Projects Program 152

 Job Access and Reverse Commute Grants 152

 Clean Fuels Formula Grant Program 152

 Urbanized Area Formula Grants Program 153

 Formula Grants for Other than Urbanized Areas. 153

 Transit Capital Investment Grants and Loans Program 153

 Transportation Infrastructure Finance and Innovation Act. 153

 State Infrastructure Bank Program 153

State Transportation Funding 153

 Introduction 153

General Overview of the State Transportation Funding System: The “Prism” Metaphor 154

 Taxes and Fees Used to Fund the State Transportation System 154

 Accounts in the Transportation Tax Fund 155

 Motor Vehicle Fuel Account established pursuant to Revenue and Taxation Code section 8351 • Highway Users Tax Account, established pursuant to section 2100 of the Streets and Highways Code

 Motor Vehicle License Fee Account 156

 Transportation Tax Fund 156

 State Highway Account • Public Transportation Account established pursuant to section 99310 et seq. of the Public Utilities Code • Motor Vehicle Account • Aeronautics Account • Bicycle Transportation Account, established under section 892.2 of the Streets and Highways Code • Ridesharing Vanpool Revolving Loan and Grant Fund • Environmental Enhancement and Mitigation Demonstration Fund, established under section 164.56 of the Streets and Highways Code • Toll Bridge Seismic Retrofit Account

Local Funding Sources 160

 Local Transportation Fund 160

 Other Local Funds 160

 Developer Fees 160

 Vehicle Registration Fees 160

 Local Option Sales Tax 160

CHAPTER FIVE

The State Transportation Improvement Program—Federal and State Requirements / 161

Federal Requirements: ISTEA 161

 Generally. 161

 “Partial STIP” Can Be Developed in Case of Difficulties. 161

 Rules Regarding STIP Portion for Metropolitan Area. 162

 State Must Provide MPOs with Estimates Regarding Funds 162

 Metropolitan TIPs Must Be Included, Unchanged, in STIP 162

 Conformity (Air Quality) Issues 162

 Notification of Affected Agencies 162

 Same Public Participation Requirements as for Preparation of Statewide Transportation Plan. 162

 Included Projects 162

 Generally. 162

 Projects Concerning Highways Other Than Federal-Aid Highways 162

 Consistency with Long-Range Transportation Plan and TIP and State Air Quality Plan 162

 Availability of Anticipated Full Funding Must Be Shown. 162

 Financial Plan May Be Included for Projects 162

 Optional, non-binding, “illustrative list” of further projects

 Must Reflect Title 23 Priorities 163

Project Selection for Areas of Less Than 50,000 Population	163	State Regulations	172
Biennial Review and Approval	163	Development and submittal of the estimate •	
Modifications to Project Priorities	163	Other contents of the fund estimate • Adoption	
Other Content and Substantive Requirements	164	of fund estimate by commission	
“Grouping” of Projects	165	The Proposed State TIP	173
Moving of Projects from One Year to Another	165	Consistency with Fund Estimate	173
Amendment of the STIP	165	Summary of Capital Outlays	173
Funding	166	Geographic Project Listing	173
STIP Approvals; Certifications		Project listings content, priority rankings,	
Regarding the Entire Planning Process	166	and submission of project differences set	
Generally	166	forth in 21 C.C.R. section 8118 P • 21 C.C.R.	
Certification of the Statewide		section 8119: Subprogram designations	
Planning and Programming Process	166	Project Information	
Review of the STIP vis-à-vis		Must Accompany PSTIP	177
the Planning Process	166	Priorities to Be Considered in PSTIP	177
Approval of the STIP	166	Consistency with State Urban Strategy	177
Length of Joint Approval Period	167	Report on Coordination with	
Decision Not to Approve the STIP	167	Other Plans and Programs	177
Notification	167	Other Necessary Information	177
Approval of Operating		Development of Forecast for Local	
Assistance Outside the STIP	167	Funding Levels (Nonmetropolitan Areas)	178
Project Selection for Implementation	167	Other Information Needed for FTIP Purposes	178
Generally	167	Project Status Report and Comparison Report	178
Selection of Projects in Metropolitan		Caltrans’ Report Regarding Status of Projects	
Areas Subject to Metropolitan Planning		in STIP or Candidates for Future STIPs	178
Project Selection Criteria	167	Comparison Report	178
Selection Outside Metropolitan Areas	167	Other Reports	178
Projects in First Year of STIP		Commission Review and STIP Adoption	178
as an “Agreed-To” List	168	Meetings with Nonmetropolitan RTPAs	178
State Requirements	168	Submission of Metropolitan	
Some Important State Statutory Provisions		TIP for Inclusion in STIP	179
Regarding the Purpose, Procedure, Content,		Public Hearings Regarding RTIPs and PSTIP	179
and Financial Aspects of the STIP	168	Identification of Criteria	179
Purpose	168	Commission Staff Recommendations	179
Procedure and Timeline	169	“Deviation” from, or Rejection of, an RTIP	179
Content	169	Findings Regarding	
Capital improvement projects • Specifications		Funding of Certain Projects	179
for each project • Limitation of projects included		Criteria for Evaluation of	
in STIP • Inclusion of interregional improvement		Transit Guideway Projects	179
projects suggested by RTPAs and county		Criteria for Evaluation of Airport Projects	181
transportation commissions		Consistency with State Urban	
Funding Issues	170	Strategy and with SIP	181
More than one category of funds may be used •		Listing of Projects	181
No matching funds required for STIP projects		Other Requirements: Section 105 Program	181
Overview of the STIP Process	170	Consensus Regarding Inclusion	
Fund Estimate	170	of State Highway Projects	181
Proposed STIP	170	STIP Appeals and Amendments	182
RTIPs	170	Generally	182
Report Comparing Previous STIP with		Contents of Appeal	182
PSTIP, RTIPs, and Rural Comments	171	Commission’s Consideration	
Adoption of STIP	171	and Disposition of Appeals	182
Appeals	171	RTIP Amendments	182
Commission Estimates of Available Funds	171	Amendments to Adopted STIP, Other	
Statutory Law: Government		Than Those Resulting from the Appeals	182
Code Section 14525	171	Substitutes for Aeronautics Projects	182
		Demonstration That Aeronautics	
		Project Will Be Undertaken	183

Reprogramming STIP Prohibited	183
STIP Not Subject to CEQA	183
STIP Guidelines.	183

CHAPTER SIX

**Regional-Level Transportation:
The Federal TIP and the RTIP / 185**

Introduction	185
The Federal TIP: Requirements in ISTEA, the Federal Transit Act, and Accompanying Regulations	186
General Principles and Development	186
Development as Part of Metropolitan Planning Process	186
Cycle for Development Must Be Consistent with STIP Cycle	186
Length of TIP	187
Priority of Projects.	187
Development of the Financial Plan— Who Is Involved	187
What Can Be Included?	187
Selection of Projects	188
Statutory Requirements	188
Project selection in transportation management areas • Projects on the NHS or part of bridge or interstate maintenance programs • Projects that are not part of NHS or bridge and interstate maintenance programs • Projects of the NHS or bridge and interstate maintenance programs • Regulatory Requirements • In areas that are TMAs and for which TIPs have not been developed or approved • Areas that are TMAs and for which TIPs have not been developed or approved • Where a TIP has been approved • Projects not in STIP are ineligible for certain federal funding • Priority to timely implementation of TCMs in nonattainment/maintenance areas	
Included Projects	189
Federal Regulatory Requirements	189
Detailed Descriptions of Included Projects	190
Grouping of Certain Projects	191
Other Funding Considerations	191
Distributions Between Urbanized Areas of Over 200,000 Population	191
Limits on Total Federal Share	191
Agreements to Distribute Funds Generally Cannot Be Used	191
Inclusion of Projects Funded under Section 3 of the Federal Transit Act.	191
Role of TIP in Managing and Monitoring Implementation of the RTP	191
Notice and Comment	192
Publication of TIP and Annual Listing of Projects	192
Approval of Operating Assistance in the Absence of a TIP	192

Modification of the TIP	192
Inclusion of TIP (Without Modification) In the STIP; Notification of Federal Agencies	193
Action by FHWA and FTA	193
Major Universal State Requirements	193
Preparation and Essential Contents	194
Basic Requirement	194
Who Prepares the RTIP?	194
Time Frames for Preparation, Submission, and Updates	195
Plans and Programs to Be Considered During Preparation of RTIP	195
Consistency with RTP	195
Consistency with SIP	195
Consistency with Fund Estimate	196
Geographic Scope	196
Contents	196
Incorporation of congestion management programs • Projects not in a congestion management program • Transit projects connected with high-density residential development • Projects adopted under Government Code section 65082(a) • Other projects • Projects to be funded with regional improvement funds • Project recommendations • Comments on PSTIP • Major projects: Cost information • Milestone delivery dates must remain unaltered • Project study reports needed • May include reserve of county shares for fund-matching • Regulatory content requirements	
Financial Considerations: Available Funds	198
Submission	198
Commission's State Law Power to Alter or Entirely Reject RTIP	199
Power of California Transportation Commission to make changes to RTIP • Power of California Transportation Commission to reject RTIP in its entirety • What do these sections enable the California Transportation Commission to do to RTIPs? The scalpel and the ax	
Submission of Rural RTPA's Comments to Commission	200
Appeals from Commission Decisions Regarding STIP	200
Site-Specific State Laws and Regulations	200
Special Arrangement in the SCAG Region	201
Designation of SCAG	201
Creation of County Transportation Commissions	201
Transportation Improvement Programs Prepared by County Transportation Commissions (Southern California Only)	201
Short-range TIPs	
Discussions Between SCAG, County Transportation Commissions, and Caltrans	202
Metropolitan Transportation Commission Region (San Francisco Bay Area)	202
Coordinated Applications for Governmental Funds	202

San Diego Association of Governments Region	202
RTIP Must Include Information from Metropolitan Transit Development Board's TIP	202
Consistency with Regional Comprehensive Plan	202

CHAPTER SEVEN

Environmental Limitations and Requirements / 203

Introduction	203
Transportation-Related Air Quality Requirements	203
Basic Terms and Concepts	203
Transportation Control Measures and Their Role in Federal and State Air Quality Plans	204
The State Implementation Plan.	204
Development of the SIP; Role of MPO	204
The federal attainment and maintenance plans and the SIP	
Air Quality Management Plans.	205
What, Exactly, Is a Transportation Control Measure?	206
Definition	206
Non-Exhaustive List of TCMs in Section 108	206
Other Basic Federal Criteria Applicable to TCMs	207
General characteristics • TCMs in serious, severe, and extreme nonattainment areas must have certain impact on emissions	
Transportation Conformity	209
General Principle of Transportation Conformity: No Federal or MPO Approval of Actions That Do Not Conform to Implementation Plan	209
Criteria for Transportation Conformity to Implementation Plan	209
Conformity Determination Must Utilize Demographics from MPO	209
SIP Itself Must Ensure Conformity.	209
Categories of Activities Subject to Conformity Analyses	210
Implementation of Transportation Provisions.	210
Restrictions on transportation-related actions of MPOs • Criteria and procedures for determining conformity of transportation plans, programs, and projects • Content of transportation plans with respect to conformity	
Conformity of General Federal Actions.	248
What is a federal action? • Conformity determination must be based on estimates most recently approved by the MPO • Federal agency must report proposed and final conformity determination to the MPO	
Environmental Review Under the National Environmental Policy Act	249
Purpose of NEPA	249
Overview of the NEPA Process	249
Step 1: Is the Proposed Action Subject to NEPA?	249
Is it a proposal for federal legislative or other major action? • Does it fall within a categorical exclusion? • Is the activity exempt from NEPA?	

Step 2: Would the Proposed Action Significantly Affect the Quality of the Human Environment?	252
Step 3: Prepare and Certify Environmental Impact Statement	252

Environmental Review Under the

California Environmental Quality Act	254
Nature and Purpose of CEQA	254
Applicability of CEQA	254
Three-Step Process for Determining Applicability of CEQA and Reports That Must Be Made	255
Is the Project Subject to CEQA?	255
What is a "project"? • Notice of exemption: Purpose and contents • Statute of Limitations	
If the Project Is Subject to CEQA, Will It Have a Significant Effect on the Environment?	
The Initial Study and the Negative Declaration	261
Initial study • The purpose of an initial study • Contents of an initial study • Format • Submission of supporting data • Consultation • How to determine if the project has a "significant effect" on the environment	
Where Project Has a Significant Effect:	
The Environmental Impact Report.	269
Scope • Economic and social effects of the project • Organizations and persons consulted in preparing the EIR • Content requirements of a Final EIR	
Means of Avoiding Unnecessary Duplication When Preparing EIRs and Environmental Documents: Tiering under CEQA.	279

CHAPTER EIGHT

Civil Rights Requirements / 287

Introduction	287
Title VI of the Civil Rights Act of 1964 and the Environmental Justice Strategy	287
Related Regulations and Assurances	287
Environmental Justice Requirements: Executive Order 12,898 and Related DOT Regulations.	288
Disadvantaged Business Enterprise Requirements.	288
DOT Policy Regarding Disadvantaged Business Enterprises	288
Terminology.	288
The <i>Adarand</i> Decision: Racial Classifications, Including Those in DBE Requirements, Must Be Subject to Strict Scrutiny.	289
Equal Employment Opportunity Requirements for Grant Recipients	290
The Americans with Disabilities Act and Accompanying Regulations	291

A	California Constitution— Article 19 Motor Vehicle Revenues	295
B	Major Federal Statutes and Regulations Concerning Statewide and Regional Transportation Planning and Programming	297
C	Major State Statutes and Regulations Concerning Statewide and Regional Transportation Planning and Programming	325
D	Regional Transportation Plan Guidelines Issued by the California Transportation Commission.	393
E	State Transportation Improvement Guidelines Issued by the California Transportation Commission.	405
F	Major Federal Statutory and Regulatory Provisions Concerning Air Quality Conformity	415
G	Checklist of Mandatory Federal and State Requirements Concerning Public Outreach	433
H	Executive Order 12,898 Concerning Environmental Justice and Accompanying Department of Transportation Regulations	441
I	How to Use the Internet: Finding Whatever You Want Including Federal and State Statutory, Legislative, and Regulatory Materials	453
J	Understanding the Language Used in Statutes, Bills, and Regulations	459
	Notes	467
	Glossary	477
	List of Acronyms	484
	Suggested Reading	487
	Index	489
