Aunt Lyn's Flea and Tick Be Gone

An all-natural, pesticide-free defensive barrier made from a concentrated blend of essential oils, **Aunt Lyn's FLEA-TICK & BUG BE GONE** is effective, yet gentle and safe-enough to use every day. This formula is different than other flea and tick products because it also deters other insects such as ants, flies, mosquitoes, etc. ...

- Depending on the outdoor activity level of your dog, where you live, the season, and other factors, the frequency of application can be daily or weekly. With each application, use 2 – 3 spritzes on the top and sides and 2 – 3 spritzes on the underside of your dog.
- You may also consider diluting **Aunt Lyn's FLEA-TICK & BUG BE GONE** if fleas/ticks are less prevalent and your pet is indoors most of the time. In those cases, mix one ounce of **Aunt Lyn's FLEA-TICK & BUG BE GONE** with up to 8 ounces of water or mineral oil.

Tips:

- Start by using weekly and increase as needed
- Shake well before each use
- Intended for topical use only
