Aunt Lyn's Holistic Defense Shampoo – *Wash, Quick Wipe, Laundry and Surface Cleaning*

An anti-viral and anti-bacterial cleansing formula with an added barrier for bug protection. It can be used alone or in conjunction with the defense properties of Aunt Lyn's FLEA, TICK & BUG BE GONE. This multi-use product is effective, yet gentle enough to use as a daily-use quick wipe to freshen and protect, and of course for times when your dog requires a full bath.

NOTE: Content has a pressure seal to keep in moisture during transport. Seal must be removed prior to first use. We suggest keeping this seal and placing back on after use, especially if you are not using the product often, to lock in moisture.

Full Bath Wash

- Completely wet your dog's fur/hair. Add ½ - 1 ounce of Aunt Lyn's **HOLISTIC DEFENSE SHAMPOO**, depending upon the size of the dog, in a mason jar or pitcher of water and shake. Apply to dog and rub into skin.
- Start washing his or her: Head, Neck, Shoulders, Chest, and Front Legs. Next, wash the mid-section: Back and Under Carriage. Lastly, do the Hindquarters. As with all shampoos, avoid getting in the eyes.
- Once you are finished washing, wait a few minutes before you begin the rinse. This will allow the essential oils to penetrate and coat for optimal anti-viral, anti-bacterial protection. Do not start to rinse until the dog is completely clean.
- Rinse off dog removing all dirt and residue until water runs clear. Gently towel dry your dog.

Quick Wipe- *Freshen Up, Protect and Disinfect*

- Wet a clean washcloth or paper towel. Apply a quarter size drop of Aunt Lyn's **HOLISTIC DEFENSE SHAMPOO** and blend. Then rub over your dog's coat. Great to use after play when coming in from outdoors or before bed when dogs sleep with you.
- Add two capfuls to an 8 oz. Water-Filled Spray Bottle and keep handy to spritz and wipe your dog down when he/she comes in from outdoors removing any dander, dirt or pollen to protect your dog and your household daily.
- During Cold, Flu or Allergy Season, remember to Quick-Wipe your dog often. People who may be sick can cough and sneeze, and pet the dog without sanitizing. Your dog then becomes the carrier of germs and bacteria that can be transferred to you or your family members.

Laundry Detergent

- Use as a gentle, but effective Laundry Detergent concentrate by adding 1-2 ounces into a gallon jug of water and pour 1 cup of the solution into your machine in place of your normal laundry detergent when washing your dog's bedding and other laundered items. Aunt Lyn's **HOLISTIC DEFENSE SHAMPOO** is formulated with hypoallergenic properties for sensitive canine skin to avoid allergic reaction.

Surface Cleaning

- Follow the directions for the Quick Wipe method to above to wipe down crates, toys, leashes, etc... to keep them clean and protected.
