Aunt Lyn's K9 Essential Dry Herb Blend

Does your dog eat grass? ... Suffer from Allergies? ... Occasionally have digestive issues? ... Is your dog a senior? ... Do you want your dog to get all the nutrients he or she was made to eat naturally? If you answered yes to any of these questions, then give your dog **Aunt Lyn's K9 ESSENTIAL DRY HERB BLEND**.

Canines were made to enhance their diet by foraging for tender green herbs found in nature. Not to eat processed grains and vegetables that biologically their systems were not designed to break down and pull nutrients from. Whether you want to address an issue like allergies or complete your dog's dietary needs, whether you home cook, give a natural raw diet or want to provide what is lacking from commercial dog food, **Aunt Lyn's K9 ESSENTIAL DRY HERB BLEND** is the answer. Most clients see results in under 30 days.

As a Nutritional Supplement:

8 - 40 pounds	½ - 1 tsp
41 - 80 pounds	1 - 2 tsp
