### Aunt Lyn's Stop the Scoots – Calcium Supplement

Made from Organic Eggshell with added Turmeric and other anti-oxidant herbs and spices to help absorption and boost the immune system. This dynamic duo prevents compacted anal sacs, commonly caused from kibble diets, while providing an additional source of Calcium essential for healthy bones. Recent studies show that dogs lack calcium from their processed or home-cooked food diets. Dogs originally gained their calcium from digesting bones. **Aunt Lyn's STOP THE SCOOTS – CALCIUM SUPPLEMENT** has the most absorbable calcium outside of eating raw bones.

#### Maintenance of Healthy Anal Glands and as a Calcium Supplement:

- Dogs 50 pounds and under: 1/2- 1 level teaspoon a day sprinkled on meals
- Dogs over 50 pounds: 1 – 2 level teaspoons a day sprinkled on meals

#### For Anal Sac Issues:

- Dogs 50 pounds and under: 1-2 level teaspoons a day for 5 days
- Dogs 50 pounds and over: 2-4 level teaspoons a day for 5 days

#### Tip:

- Remember, for strong bones and healthy teeth, sprinkle a little **Aunt Lyn's STOP THE SCOOTS – CALCIUM SUPPLEMENT** on your dog's meals for added calcium nutrition.

**NOTE:** If your dog is on a Raw Diet or you feed your dog eggs, it is very important to include **Aunt Lyn's STOP THE SCOOTS – CALCIUM SUPPLEMENT** to balance the egg whites and yolk with needed calcium. Use 1 level tsp for each egg to balance Phosphorous and Vitamin D with Calcium. Many dogs will not eat the egg shell on its own, but they love our organic egg powder sprinkled on their food.
