---

Product: Creme-Based Products

---

Attached is a copy of our Material Safety Date Sheet for foundation base wax used in Ben Nye creme products. This compound is the primary ingredient in all of the creme-based products listed (see footnote).

Products may include one or more of the following non-hazardous, cosmetic grade components:

Talc  
Titanium Dioxide  
FD & C Oxides  
D & C Oxides  
Preservatives

The addition of these components to the base material should not alter it to the degree that an additional MSDS would be required.

---
